D. L. Maynard Victim Of Heart Attack

David Leslie Maynard, 49, well known Maxton citizen, died suddenly of a heart attack at his home early Tuesday morning. His death came as a great shock to his family and friends, as he had apparently been in his usual health and was expecting to resume his position at the air base the next day after having been off for a short while.

Funeral services will be held Sunday afternoon at the home at 3 o'clock, as it was not possible for his only brother to reach here earlier. Account of the service will be given later.

Mr. Maynard was born at the old Smith home near Maxton, the son of the late Charles F. and Jane Smith Maynard. The family moved to Maxton when he was a small boy and he has lived here since. For many years he held a position with the McRae Co., one of the oldest firms of the town, and was diligent and faithful in his work. Recently he has been employed at the Laurinburg-Maxton Army Air Base.

He was a man of kind and genial nature, who found his greatest pleasure in being helpful to others, especially to those in trouble or distress of any kind. His thoughtfulness and friendliness drew to him a great many friends from all walks of life. He was a member of the Presbyterian church, the Masonic Lodge and was a veteran of World War No. 1.

In 1918 he was married to Miss Dora Wilkinson of Maxton, who survives with two sons, Harold L. of Maxton and David L. Jr. of the U. S. Navy, now in Japan, a daughter, Miss Ann Nash of Maxton and by one brother, Paul Maynard of Clewiston, Fla., and an uncle, Neill D. Smith of Maxton.

NEWS AND VIEWS

(By RUTH R. CROOM)

(By Ruth R. Croom)

RUMORS—We've always heard you could hear more rumors around an army base than anywhere in the world, and we're beginning to believe it. Certainly nobody seems to know anything for certain about our local base. We hear it's to close and all the civilian employees are laid off then they're recalled, and we hear it's to be permanent, that the Greenville base is to be moved here. The only thing we or anyone seems to really know is that it's humming with activity again—and that seems mighty fine.

STILL HOPE—Although we were so skeptical last week we are beginning to believe there may be something to the miraculous anti-age serum. It is called AGS (meaning anti-recticular-cytotoxic serum) in case you like to be technical, and promises not only to lengthen your life but to rejuvenate you so that the seventies and eighties will be just as much fun as the thirties and roaring forties. What an age to live in! It's about time that the oldsters got a break after we've used "Youth Must Be Served" and first as our motto for so long. The youngsters will have some keen competition if this stuff works out, for just think what it would be like to be able to profit by past experiences and have another chance. Grandpa would be simply irresistible and invincible. So stick around, you girls and boys of the gay nineties, and stay young in heart. You could stand to forego the pleasure of growing old gracefully, couldn't you!

PHONE PERSONALITIES—

Had you ever noticed what nice telephone personalities some people have, while others, who are nice in person, always seem cross and crabby over the wire? It's a real gift and one it would pay us to cultivate to be our best self, when at times the phone rings loudly and insistently at the wrong moment. Our personal nomination for one of the very nicest telephone personalities is Mrs. Fan Lesser of the USO club. Long before we met her face to face we had the pleasure of making her acquaintance via the telephone and we knew just what a charming young woman she was. There's another angle we might mention too. If you have a message for a very busy person and you're afraid you might interrupt him by calling, why not write a note instead. Then he can read it at his convenience.

County's goal for the year is \$12,000 and the local Red Cross leaders have set March 4 as the closing date for the campaign.

Keynote of Monday's kickoff meeting was that the work of the Red Cross must continue although the war is over.

C. B. Stafford of Fairmont, general chairman of the campaign, declared his belief that a capable staff had been assembled to conduct the appeal and that the goal would soon be reached.

Various chairmen pointed out that all home front activities of the Red Cross must be maintained as well as overseas units for occupation troops on both sides of the world.

Miss Anne Coucoules, executive secretary of the Robeson county chapter, told of increased work done by the local unit in rendering various services to veterans.

She declared that much preliminary work toward obtaining Veteran Administration assistance originates with the local Red Cross units which must conduct investigations and execute necessary forms before assistance is rendered.

Miss Coucoules requested that all chairmen make their first reports on Friday, March 1, in order that exact information would be available on the progress of the drive.

She reminded that on the first reporting day in last year's campaign, 97 per cent of the goal had been subscribed.

George T. Ashford of Red Springs, chairman of the county Red Cross chapter, expressed confidence that the citizens of the county would rally to the cause and would readily meet their quota in view of the fact that they are asked for only half of what they gave last year.

Goals set for each branch of the campaign are: Fairmont \$2,100, Lumber Bridge \$100, Lumberton \$4,000, Maxton \$1,000, Parkton \$300, Pembroke \$750, Red Springs \$1,250, Rowland 1,250, St. Pauls \$1,250.

Edens Land Valued At \$800 By Jury

A Superior court jury Thursday rendered a verdict setting \$800 as a fair price for land owned by A. C. Edens which the town of Red Springs has sought for the extension of College street. No judgment was signed immediately by Judge Clawson Williams.

The city had set \$339 as a price for the land in condemnation proceedings.

It was indicated that the town probably would abandon plans to improve College street due to prohibitive cost of the land. The town had contended that its offer of what Edens had paid for the particular piece of land in 1944 plus 10 per cent would be a fair price whereas Edens contended that property values had risen considerably in Red Springs during the past several years, making the offer unreasonable.
