

THE ROANOKE PATRON.

This paper is entered at the Post Office at Potocasi as second-class matter.

THURSDAY ... APRIL 30, 1891.

LOCAL.

—Last day of April.  
 —Corn coming up nicely.  
 —Weather continues good.  
 —The leaves will soon be grown.  
 —Honeysuckles are almost ripe, children.  
 —Commissioners' court at Jackson next Monday.  
 —Are you going to try your fortune to-morrow?  
 —We are glad to report our sick ones all on the mend.  
 —We have not learned when work will begin on the Jail.  
 Do you want a good farm journal free? Read our offer on 24 page.  
 —One communication for the temperance column. Read it on 24 page.  
 —The cold snap made a clean sweep of the plums, but cherries are all right.  
 —There were plenty of corned her rings at M. H. H. for a week, at \$1.75 per bushel.  
 —Mrs. C. W. Harrell, of Woodland, spent Wednesday with relatives of our village.  
 —Subscribe for your home paper the ROANOKE PATRON. Only a dollar a year, fifty papers.  
 —We have nothing for the teachers, column this week. Write for your column, teachers.  
 —I used Simmons Liver Regulator for indigestion with immediate relief.—O. G. Sparks, Ex-Mayor, Mason, Ga.  
 —The Juveniles elected their officers for the ensuing quarter last Sunday evening, and the Good Templars Monday night.  
 —The late nice weather has taken some of the students from the schools as they were needed at home to help do the planting, &c.  
 —The selection of a site for the new jail in this county, will be a part of the business of the Commissioners next Monday.  
 —See ad of the Davis Sewing Machine. It has the reputation of being a good machine. Write to the firm if you want a machine.  
 —Read the ad of Beethoven Organ Co. in last column of this page. Write to the Co. at once if you are thinking of buying an organ or piano.  
 —We learn from the Index that work on the railroad from Murfreesboro to Penitentiary has been resumed and that it will be pushed forward to completion.  
 —Mrs. A. J. Conner, P. T. Hicks and A. Draper, of Lusk, returned from Windsor yesterday where they had been in attendance at court there as witnesses.  
 Why suffer with dyspepsia, biliousness or any disease of the liver when you can be cured by Simmons Liver Regulator.  
 —We had a good rain last Friday which was very beneficial in softening the land that was getting hard, and also in bringing up the young plants. More rain would do good now.  
 —We learn of a very old lady in Cabarras Co., this State, who has lived for a long time in poverty, had lately fallen heir to a very large estate, fifty two millions we think. Won't she have friends(?) and advisers!  
 —People die, and they must be buried, and though Luxton & Baugham would not rejoice at the death of one, they will gladly furnish a nice coffin of any size or style to put them away in. See their add in another column.  
 —We regret that circumstances were such that we could not attend the County Grange meeting at Mineral Spring Tuesday. We hope the brothers and sisters had a goodly meeting. Let us have a report from you, Bro. Secretary.  
 —We ask our townsman who lately tried "Nerve and Bone Liniment" for the dry grippe of road cart axles, (we suppose it will do as well for buggy or any other kind of axles), to report how it acted. If it did well, no doubt the manufacturers of this liniment would be glad to learn of this new use for their liniment.  
 —The la grippe (we suppose) has been raging fearfully in our village and vicinity the past week, and we learn that it is worse in the neighborhood of Bethany. Among the sufferers not mentioned last week are Mrs. G. A. Hart, J. J. Beale, Miss L. M. Gilliam, Mrs. Bettie Jenkins, Cherry A. Mann, Winnie Futrell and several of G. M. Powell's children. They are all improving, we are glad

to report.  
 —Mrs. Mann who has the grippe, says she wants to get certain others, whom she named, together after they all get well, and hear them tell their experience with this bone-breaking, head-splitting, unmerciful, disease. It would be interesting to hear, no doubt.  
 —A party from our village went down to Mt. Gailant fishery Tuesday to have a good time, and enjoy eating fish just from the water. They had a good time, of course, but found the fishermen doing a poor business, as they were catching very few fish. They hung up their sea until Monday.  
 —Potocasi Grange, by motion, decided at its meeting last Saturday to petition for the next session of the Northampton Pomona Grange to be at its hall here, but we don't think any delegate from Potocasi attended the county meeting, and consequently the petition was not carried up to the County Grange.  
 Coughs and colds kept off by taking Simmons Liver Regulator to regulate system.  
 ROXBEL DOTS.  
 Roxobel can now boast of a poet. Today is much cooler than the past few days have been.  
 Land is getting pretty dry. Little rain is needed.  
 Usual services at the churches here to day.  
 Roxobel Academy opens again to-morrow after having been stopped for two weeks.  
 Small pox has made its departure and our people are not now in much trouble.  
 Nice line of spring hats at the millinery establishment on Church St. Now is a good time to purchase.  
 "Dots" will come out as daily next week though they will all be published at the same time.  
 Trade here Saturday was pretty lively. Our merchants were better engaged than they had been cutting goods boxes.  
 Commodore while in his stay at Lewiston let one of the fair sex wig his heart. Don't you know Miss — is miserable!  
 Mrs. John Wood, of Lewiston, came up yesterday to spend a week with her mother, Mrs. M. C. Cox, on Roanoke street.  
 Fresh shad in town nearly every day, but the price is more than we can afford to pay.  
 The La Grippe is fast disappearing and a few days of good, seasonable weather will drive it away entirely.  
 Rapid progress has been made on the farms since the nice weather set in. All the crops will soon be planted.  
 Dr. P. C. Jenkins is confined to his bed from vaccination. Hope to see him out again in a few days.  
 Our townsmen, who left for New York a week or two ago are expected to return on next week as all danger from small-pox has passed.  
 Roxobel, N. C., April 26, '91.  
 J. ELMA PEELE.  
 Simmons Liver Regulator is the foe of malaria as it throws off the bile and prevents its accumulating.  
 WEEKLY WEATHER CROP BULLETIN OF THE North Carolina Weather Service, FOR THE WEEK ENDING APRIL 24, 1891. CENTRAL OFFICE, RALEIGH, N. C.  
 The beginning of the crop season of 1891 was decidedly discouraging and affords a noteworthy contrast with the conditions prevailing during the same period of the preceding year. Continued cloudy weather, with an excess of rain-fall during January, February and March, prevented farmers from doing out-door work of any kind. The mean temperature and average rain-fall for the State for the first three months are as follows: January, mean temperature, 41.3 deg., which is 0.2 below the normal; average rain-fall, 4.84 in., 0.29 above the normal. February, mean temperature, 48.1 deg., 3.2 above normal; average rain-fall, 5.68 in., 1.50 above normal. March, mean temperature, 45.4 deg., 3.4 below the normal; average rain-fall, 7.45 in., 2.50 above normal. March was the coldest and wettest month. The soil was soaked, roads nearly impassable. At the beginning of April the "rainy season" suddenly ended with a cold snap, sending the temperature below freezing on the 5th, with heavy frost, causing considerable damage to crops, especially fruit, but not nearly so much as was expected. Since April 5th remarkable fine weather has prevailed, with but little rain-fall, abundant sunshine and excess of temperature. Vegetation has made remarkably rapid progress, and by hard work farmers have recovered much lost time.

Estimates of the decrease in acreage in cotton for this year are from fifteen to forty per cent. Several farmers will plant no cotton at all. Tobacco and peanuts are now rival claimants to the agricultural throne of Edgewood. —Southern Farmer, Darboro N. C.

 ap 2 4t  
 Many Persons who have been down with overwork or house-ache, are cured by Dr. Williams' Iron Bitters. It builds the system, aids digestion, removes excess of bile, and cures malaria. Get the genuine.

**SIMMONS LIVER REGULATOR**

**SYMPTOMS OF LIVER DISEASE:** Loss of appetite; bad breath; bad taste in the mouth; tongue coated; pain under the shoulder-blade; in the back or side—often mistaken for rheumatism; sour stomach with flatulency and water-brash; indigestion; bowels lax and costive by turns; headache, with dull, heavy sensation; restlessness, with sensation of having left something undone which ought to have been done; falling after eating; bad temper; blues; tired feeling; yellow appearance of skin and eyes; dizziness, etc. Not all, but always some of these indicate want of action of the Liver. For

**A Safe, Reliable Remedy** that can do no harm and has never been known to fail to do good.

**Take Simmons Liver Regulator**—AN EFFICIENT SPECIFIC FOR Malaria, Bowel Complaints, Dyspepsia, Sick Headache, Constipation, Biliousness, Kidney Affections, Jaundice, Mental Depression, Colic.

**A PHYSICIAN'S OPINION.** "I have been practicing medicine for twenty years and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectually move the Liver to action, and at the same time aid (instead of weakening) the digestive and assimilative powers of the system."  
 L. M. HIXON, M. D., Washington, Ark.  
**ONLY GENUINE** Has our Z Stamp in red on front of wrapper.
