Golfers Fix Their Own Handicaps in Saturday's Kickers Event.

H. W. Priest and Miss Caroline C. Check. Win the Dainty Sterling Trophies Offered.

A "KICKER'S HANDICAP" arranged by Lathrop E. Baldwin of New York, Dwight Partridge of Bedford, N. Y., and H. A. North of Chicago, Ill., was a popular golf feature Saturday. There were twenty-two participants and the scores were well-bunched.

Sterling golf club seal watch fobs were offered for the best net scores nearest the unknown bogey, made by both men and women. H. W. Priest of the Tedesco Golf Club, Massachusetts, playing with a handicap of fourteen, and Miss Caroline C. Check of East Orange, New Jersey, whose handicap was twenty, were the winners with eighty-four net, each.

American Field, and all visitors in Pinehurst will heartily agree with the writer, for nowhere are these songsters more plentiful or their notes more melodious.

While the mocking bird is primarily an imitator, hence the name, the real charm of its song lies in the fact that it is an individual interpretation of the songs of other birds; because it is suggestive, artistic.

North Carolina through its Audubon Society, is doing valuable work in the protection of its feathered songsters and without question the song of the mocking bird will continue to be one of the great charms of Spring here for all time

CONSOLATION TOURNAMENT!

Target-Pistol Club Holds Shoot for Those Who Have Won No Prizes.

Mrs. F. H. Abbott Leads the Field With Net Target of Two Hundred and Seventy-Four.

WHAT THE CONSOLATION tournament of the Pinehurst Target-Pistol Club, open to all who have won no cups during the winter, lacked in numbers, it made up in enthusiasm, for no contest of the winter has aroused more interest among the participants.

Mrs. F. H. Abbott of Bethlehem, N. H., won the cup offered for the best net score with a gross target of one hundred and ninety-four, which plus her handicap of eighty, made two hundred and seventy-four net. Mr. Abbott was a close second with two hundred and twenty-five gross, two hundred and sixty-five net. Miss Rust of Saginaw, Mich., whose handicap allowance was ten, finished third with two hundred and fifty-three.

Among other participants were Mrs. S. T. Crapo, Saginaw, Mich., scratch, who scored one hundred and eighty-one and L. T. Stone, Mo-

hawk, N. Y., and J. D. Westcott, Union City Pa., who did not hand in targets.

While it is probable that this event brings the winter's series of events to a close, interest in this sport is by no means at an end, and enthusiasts are found at the butts almost every day of the week.

Among those who are making most marked advancement is Harold A. Fisher of Chicago, who has come very close to the four hundred mark, and will probably surpass it before long.

Collecting Wild Flowers.

Many of the Village guests are finding enjoyment in making collections of the flora of the vicinity and all would find the pastime a fascinating one and the result a most treasured souvenir.

The flowers are easily preserved by pressing them between books or boards until thoroughly dried and then pasting them in scrap books, arranged to suit the taste.
