

# The Pinehurst Outlook

PINEHURST, MOORE COUNTY, NORTH CAROLINA

VOL. VIII; NO. 24.

SATURDAY MORNING, APRIL TWENTY-NINTH, 1905.

PRICE FIVE CENTS

## DURING THE COMING SUMMER

### Much Work Planned in Way of Village Perfection and Improvement.

Utility Plants to be Enlarged, Water Supply Increased, and Golf Course Lengthened.

**T**HE coming summer will be a busy one here, for much work is to be done along the well defined plan of the Management, which aims to keep Pinehurst abreast with its rapid growth, and to maintain its reputation as the most complete resort of its character in the world. No season in history has been more significant of the future possibilities of the Village, and the work undertaken will not only plan to meet present requirements, but to provide for future needs as well.

#### UTILITY PLANT ENLARGEMENT.

The perfection of the various utility plants, the Dairy Farm, Poultry Farm, and Market Garden, was practically complete at the beginning of the present season, and the results achieved have been most satisfactory. Plans for work in these departments are, in consequence, mainly to provide for necessary enlargement, brought about by the increasing demands of the Village.

The output from the Dairy during the season has been more than ample to meet the various needs, and the abundant supply of pure milk produced and cared for under the most approved sanitary conditions, has been particularly pleasing to the visitors, and brought forth warm praise. No resort in the country is as splendidly equipped in this particular. The Dairy building in process of construction, will be complete and in operation before the commencement of another season.

The Poultry Farm has made rapid growth during the season, and its output of toothsome broilers, capons, fowls, turkeys and ducks, has been a feature of the hotel tables. In addition to the production of fowls to provide for food supply—the principal aim of the Farm—notable extension has been made in the way of breeding fancy stock, and the Farm is now in a position to supply breeding fowls and settings of eggs from twenty choice varieties.

The supply of cucumbers, lettuce, spinach, radishes and other vegetable

delicacies by the Market Garden, has been so successful and so much appreciated, that it has been decided to move the hot houses to the hill overlooking the power house, in order that this department may be considerably enlarged. This work will probably be completed this summer, and additional results are looked for during the coming season.

Extensive work which will increase the water supply of the Village from its

hurst Schools has been definitely decided upon, as a result of the past and most successful season. The number of pupils was double that of the year previous, and a much greater interest was shown not only in school work, but in athletics as well. This latter feature promises much for the school's future.

Head Master Aldice G. Warren, will return and the splendid new school building will be complete in every particular

GEORGE D. PUSHEE, WESTON, MASS., WINNER SATURDAY'S MEDAL PLAY HANDICAP.

present capacity of 150,000 gallons daily, to between five and six hundred thousand, is well under way, and will be pushed rapidly forward during the summer. The Village is particularly fortunate in the abundance of its water supply, and its absolute purity, due to the exceptionally fine sand filtration which gives it unequalled clearness and softness.

#### PINEHURST SCHOOLS.

Extensive enlargement of the Pine-

hurst Schools has been definitely decided upon, as a result of the past and most successful season. The number of pupils was double that of the year previous, and a much greater interest was shown not only in school work, but in athletics as well. This latter feature promises much for the school's future. Head Master Aldice G. Warren, will return and the splendid new school building will be complete in every particular

(Concluded on page eight.)

## GEORGE D. PUSHEE WINS

### Takes Season's Closing Golf Tourney With 81 and Single Stroke.

Good Field of Contestants Including Several Women—Scores Well Bunched.

**S**ATURDAY'S 18-hole medal play handicap, for a very attractive sterling cup, closed the season's stated program of golf tournaments, and attracted a good field of participants.

George D. Pushee, of Weston, Mass., whose handicap was 14, won with a card of 81 net, leading T. B. Cotter, of Winchester, Mass., who played with an allowance of 18, a single stroke.

#### THE SCORES.

	Out	In	Gr.	Hp.	Net
Geo. D. Pushee, Weston, Mass.,	48	47	95	14	81
T. B. Cotter, Winchester, Mass.,	53	47	100	18	82

A. G. Warren, Rochester, N. Y.; Albert Crockett, Buffalo, N. Y.; Geo. McG. Hayes, Canandaigua, N. Y.,	no cards.				

#### Village Beautification.

The customary work of care and improvement in the way of Village beautification, which has been such a delightful feature in the past, will be continued during the summer. This work is already well under way.

General repair work throughout the Village, both in the hotels and cottages, will receive the usual attention.
