

THE BALMY BREEZES OF THE SUNNY SOUTH

Are laden with Health and Happiness for the Worn-out Wrestler with the Strenuous Life.

But you cannot repair wasted tissue or restore strength to jangled nerves with air and sunshine alone.

The stomach calls for a food that supplies body-building material in its most digestible form. Such a food is

Shredded Whole Wheat.

It is made of the whole wheat, cleaned, cooked and drawn into fine porous shreds and baked. These delicate shreds contain all the nutritive elements of the whole wheat grain and are taken up and assimilated when the stomach rejects all other foods.

Shredded Wheat is made in two forms--BISCUIT and TRISCUIT. The BISCUIT is delicious for breakfast with hot or cold milk or cream, or for any meal in combination with fruit or vegetables. TRISCUIT is the shredded whole wheat cracker, crisp, nourishing and appetizing. Delicious as a toast with beverages or with cheese or preserves.

"It's All in the Shreds."
