MERRIMENT REIGNS SUPREME

Women's Team Monkey Match Frolic from Start to Finish.

Miss Check and Mrs. Paterson Decide Tie at Eighty—Other Teams Close Up.

A JOLLIER company of golfers than the twenty-four women who participated in the "Monkey" medal play team match, has never trod the links together. Their merry voices and laughter echoed between shots, from start to finish, and their white gowns glistened in the sunlight, making a pretty picture in keeping with the occasion.

And withal, there was the spirit of friendly competition, which always goes hand in hand with all co-operative contests, and in spite of the merriment there was an effort on the part of all to play a part and play it well.

Four teams of six each, captained by Miss Check, Mrs. Paterson, Miss Dutton and Mrs. Dana participated, each team playing one ball, and players using the club assigned by lot throughout, and in order. The brassie came first, the cleek second, the midiron third, the niblick fourth, the mashie fifth and the putter sixth, and no matter where the ball lay the club of the player-up had to be used.

Driving with putters, niblicks and mashies and putting with brassies or cleeks, came as a natural consequence, not to mention playing out of pits, bunkers and hazards with improper clubs. But this was all a part of the game and the contestants adapted themselves to conditions, did admirably and found no end of enjoyment in it.

The ninth and last hole found Miss Check and Mrs. Paterson tied for first at eighty, with Miss Dutton a stroke away in eighty-one, and Mrs. Dana fourth, in eighty-nine. On an extra hole play-off Miss Check's team won.

The popularity of monkey golf and frolics of a like nature here, is a pleasant indication of the good fellowship which reigns supreme, and which gives an open sesame to scores of pleasant acquaintances among both men and women.

NOTE—A photographic reproduction of

of Columbia, in a thirty-six match play contest.

Not only Mr. Travis but Mr. Lard as well, were decidedly off their games and Mr. Foot had matters pretty much his own way, defeating the ex-British champion six and five in the morning and six and four in the afternoon. Mr. Foot was playing consistent and steady golf throughout, doing eighty-one in the morning and eighty in the afternoon, while Mr. Travis and Mr. Lard were well up in the eighties.
