WINCHESTER

THE
W
BRAND

Cartridges

"The Most Accurate"

The tests held recently by the Board of Government Experts to determine the best ammunition resulted in Winchester rifle cartridges again being found superior to all other makes. This official finding is a reliable guide to follow in the selection of ammunition. All Winchester cartridges from the tiny .22 to the big .50 caliber, and all Winchester shotgun shells, are made with the same care, under the same scientific supervision, and of the same high class of materials as the Winchester rifle cartridges which have won the Government tests two years in succession. Winchester rifle and pistol cartridges are uniform and reliable. Their accuracy, velocity and penetration are unequalled. They are always effective for small game, big game, dangerous game, target practice or protection. Use them and attain your highest degree of shooting efficiency.
