

**W**HEN YOU send your family washing "out," where does it go?

Does it find the wholesome, sanitary surroundings your intimate garments should have?

Is it dumped in with the clothes from families under conditions that may easily carry disease back to your home?

Is the work done in a clean, well ventilated place, by modern processes that both cleanse and save your garments and linens?

You can answer each one of these questions as it should be answered, if you send all of your laundry to us.

It will pay you to investigate the way in which we care for every part of a family's washing.
