

SHOWING RESULTS FROM USE OF THE KING ROAD DRAG

tical good roads enthusiast, and his work in connection with the organization of the Capital Highway as well as the actual improvement of hundreds of miles of good roads immediately surrounding Pinehurst make this reputation well deserved. ¶ Because the great majority of the tourists who visit Pinehurst annually leave for their respective homes with a scant knowledge of North Carolina, Mr. Tufts intends to induce guests to become better acquainted with the surrounding country, its many historic attractions and general resources. Good roads are being built, radiating out from Pinehurst and looping back, the distance being calculated to cover a moderate length for a touring day, and guests will be furnished with descriptions of the various attractions along each route. These routes will extend out in a radius of some fifty miles from Pinehurst, and will afford an agreeable change to those who desire to vary their enjoyment of golf, shooting or other sports, interspersing them with a day's motor ride.

A great trunk line from the North to the South is bound to be built, with or without federal aid, and while at the present time there are many links of roads, totalling in the aggregate hundreds of miles, there are some "missing links" still too strongly in evidence. I predict that within a period of two years these links will not be missing, and that tourists may with comfort and pleasure take themselves and their families, migrating from the Northland to the Southland, without giving a moment's thought to shovels and spades, axe, rope and tackle and other necessary tools of pioneer days' travel. A. L. WESTGARD

WESTGARD ON THE MOVE**Trip to Wilmington Followed by Wide Scouting Circuit**

Field Representative A. L. Westgard of the A. A. A. is making the most of perfect February days in his work of compiling material for a good roads map covering a seventy-five mile radius of the

section. ¶ Opening with a trip to Wilmington he spent a few days near-at-hand picking up loose ends, and he is now on a circuit which includes Ashboro, High Point, Greensboro, Chapel Hill, Durham and Raleigh which will bring him to Pinehurst early in the week. ¶ Mr. Westgard has promised THE OUTLOOK a sketch of his map which we shall anticipate printing in the course of several weeks together with detailed information concerning his experiences.

HANDICAP FOURSOMES**Silver Foils Compete for Mrs. Scammell's and Mr. Fownes' Prizes**

Handicap foursomes for prizes contributed by Mrs. M. Johnston Scammell and Mr. Henry C. Fownes occupied the attention of the Silver Foils on Tuesday. The prize-winners were Mrs. E. A. Randall of Portland, Me., and Mrs. H. W. Ormsbee of Fitchburg, who scored ninety-three, playing with a handicap of twenty-two. Miss Hazel Shannon of Buffalo and Miss Lucy K. Priest of Portsmouth, whose allowance was eleven, were second in ninety-nine, and their one hundred ten was the best gross.

Other scores were: Mrs. Guy Metcalf of Providence and Miss Dorothy Hutchinson of Lansing, 10-103; Mrs. R. C. Shannon, II. of Brockport and Mrs. I. S. Robeson of Rochester, 11-104; Mrs. W. E. Truesdell of Brooklyn and Mrs. Alexander McGregor of Boston, 11-108; Miss I. C. Linton of Montreal and Miss Agnes Blancke of Essex Fells, 12-109; Mrs. Herbert L. Jillson of Bethlehem, N. H., and Miss Gwendolyn Cummings of Brookline, 9-111; Mrs. P. M. Shannon of Buffalo and Mrs. J. D. Price of Hazleton, 36-112; Mrs. M. D. Rae of Essex Fells and Miss Jennie Brown of Utica, 20-114; Mrs. T. J. Check of New York and Miss Edith Barnett of New Haven, 13-120.

Zanoni Proves Entertaining

Zanoni entertained a large company at The Carolina with his mystifying "psychological" stunts.

and Handsomest,
Repeating Shotgun
Made*

THE NEW

WINCHESTER

MODEL 1912

Hammerless Repeating Shotgun

20 GAUGE TAKE-DOWN

It weighs only 5½ pounds, yet it is the strongest repeating shotgun on the market, all metal parts throughout being made of Nickel Steel. It exhibits a grace of outline and perfection of detail and finish unapproached by repeating guns of other makes. It is free from unsightly screws and pins to collect rust and dust and work loose; and its solid breech, closed at the rear, gives it extreme safety. In operation, it works with an ease and smoothness unknown in guns of other makes. It is simple to load and unload, and simple to take down; being separated into two parts easily and quickly without tools. In shooting qualities, it is fully up to the established Winchester standard, which has no superior.

Ask your dealer to show you one, or send to Winchester Repeating Arms Co., New Haven, Conn., for handsome, illustrated circular describing it
