## Colonial History Wrought in Silver

As an assistance to the formation of a correct estimate of the beauty of Colonial patterns in silverware we have issued a series of authoritative historical brochures, "Colonial," "Georgian," "Newbury," "Paul Revere," "Benj. Franklin" and "LaFayette." So carefully have these books been prepared that public libraries everywhere accept them as history and public and normal schools employ them as supplementary text books. They are fully and handsomely illustrated with rare views of quaint spots in historic New England and will prove of great interest to lovers of Colonial furniture and architecture. Any single brochure mailed on request; the set of six for \$1.00
