MOORE COUNTY'S OWN

(Concluded from page five)

a brick mason. The child, whether it have poor parents or rich parents, is the most valuable undeveloped resource in the State."

"Society forever needs reinforcements from the rear. It is a shining day in any educated man's growth when he comes to see and to know and to feel and to admit that it is just as important to the world that the ragamuffin child and his worthless neighbor should be trained as it is that his own child should be. Until a man sees this he cannot be a worthy democrat nor get a patriotic conception of education, for no man has known the deep meaning of democracy or felt either its obligation or its lift till he has seen this truth clearly."

"I believe in the free public training of both the hands and the mind of every child born of woman."

"I believe that by the right training of men we add to the wealth of the world. All wealth is the creation of man, and he creates it only in proportion to the trained uses of the community; and the more we train the more wealth every one may create."

"I believe in the perpetual regeneration of society, in the immortality of democracy, and in growth everlasting."

"The Southern people were deflected from their natural development. They are the purest American stock we have. They are naturally as capable as any part of our population. They are now slowly but surely working out their own destiny, and that destiny is a democratic order of society which will be an important contribution to the republic that their ancestors took so large a part in establishing. Rich undeveloped resources of American life lie in these great rural stretches that are yet almost unknown. The foremost patriotic duty of our time is to hasten their development."

"What are you here for? What are you trying to do? Just to make another magazine? Or to make money? Or to advance some cause? Or to further some movement?" This was the vigorous and challenging volley of questions that a frank philosopher of one of our university faculties flung out during a call at the editorial office during the early days.

"No, none of these is the main aim. The main aim is to hold fast to and to apply at every turn the ideals of the republic, as the best home that is or has ever been of equal opportunity and fair play, and by these to build up individual and national character."

NOTE—The name of Page has long been synonymous with the development and the prosperity of Moore County. Faithfully and well a brother of the new Ambassador, Congressman Robert N. Page, has served the District and as President of the former Aberdeen & Asheboro Railroad, Henry A. Page has been a prominent figure; his field of usefulness at present enlarged through service in the Legislature. Two other brothers, J. R. Page and Frank Page,

are at present interested in the development of Jackson Springs, and two sons as well as the brothers named, have long realized the agricultural possibilities of the immediate section.—EDITOR.

A Marco Polo Golf Medal

James D. Foot of Apawamis, who may be looked to when anything out of the ordinary occurs in the golf line, has recently recovered an Englewood medal which has seen varied vicissitudes. Mr. Foot lost the trophy on the No. 1 golf course some years ago, and last year he heard of it while on a hunting trip at Eagle Springs.

"Colored boy at Aberdeen has it," said the informant. Aberdeen was ransacked with the result of information that a traveling man, Mr. D. W. Spencer of Lynchburg had bartered for the prize, and the medal was returned to Mr. Foot not long ago.

The medal represents a four-ball victory at Englewood in which Mr. Foot partnered with Ralph Peters, recorded a seventy-one and naturally is much cherished.
