MOORE COUNTY LIVE STOCK

Pinehurst's Example Has Been Widespread In Its Influence

The Pinehurst dairy, started in 1902, was the first commercial dairy put in operation in this section. It is thoroughly modern and sanitary, with such buildings as are needed to handle the milk from the herd which is composed of 100 cows (15 of which are pure bred Ayreshire) 3 registered Ayreshire bulls, 40 yearlings and about 75 calves. This herd is being improved each year by the use of good sires and proper handling, and this year the average was above 6000 pounds of milk for each cow. The Ayrshires that were shown at the last North Carolina State Fair won 11 first and 5 second ribbons, including awards for the best exhibition herd, breeders' young herd, champion bull and champion cow. This breed is very healthy and is troubled very little with sickness or disease.

The herd of hogs consists of 3 boars, 40 brood sows and from 200 to 300 pigs and young stock, all registered Berkshires. The exhibit from this herd at the last State Fair won every ribbon offered for Berkshires except on the aged boar, and there was no entry in this class. There are worked on this farm 11 mares, 2 pure bred and 9 grade Percheron and a good Percheron stallion, and from these are raised the kind of horses that are so badly needed in the South. Another very interesting thing that is being done here is the feeding and fattening of two car loads of steers from the western part of this state. They will be fed on cotton seed meal, ensilage and corn stover, and then sent to the Northern markets. The gain in weight of these steers and the increased selling price above their cost as a result of their having been fattened and made ready for the butcher, will more than pay for their feed and care, but the main object is to get the manure that they will make (something like 250 tons) for nothing.

Reference to the ribbons won is merely to show that just as good stock can be grown here in the South as in any part of the country if good sires are used and the business of breeding is gone about in an intelligent manner. Most of the soil in the South needs building up, and this can only be done by growing hay, legumes and cover crops and having the stock to eat them. With the high prices prevailing at present (and all indications are that they will go still higher) this part of the country should grow more live stock and get the benefit of these high prices instead of letting the Western farmers reap the reward. What the South needs at present more than anything else is more and better live stock.

Tin Whistles in Round Robin

The annual "Round Robin" competition of the Tin Whistles rounds out the week. ¶ Thus early elaborate plans are being made for the annual Carolina dinner, March 9.

House Guests of Mrs. Stokes

Mrs. Sarah Halkett, Miss Helen Phelps Stokes, Miss Mary Sanford and Miss Emma Louise Parsons, all of New York, are guests of Mrs. Anson Stokes Phelps.

PINEHURST SCHOOL

College Preparatory Grammar and Intermediate and Primary Departments FOR BOYS AND GIRLS

THE scheme of work is individual, the aim being to enable pupils to continue in the same studies which they have been pursuing in their own home schools. If they bring the books they have used and a plan from their teachers of the ground to be covered during their absence, they will be so instructed that they may rejoin their classes without loss, after a long or short stay in an ideal climate, surrounded by right conditions for healthy outdoor life. Pupils may enter at any time and for any length of time.

TERMS

Primary: season, \$75.00; week, \$4.00.
