

Your Gun Knows

that there is a difference in powders. So does the veteran sportsman—he makes it his business to know as much about powders as he does about game, dogs and guns. He knows that shells loaded with

HERCULES

"INFALLIBLE"

Smokeless Shotgun Powder

give uniformly good results.

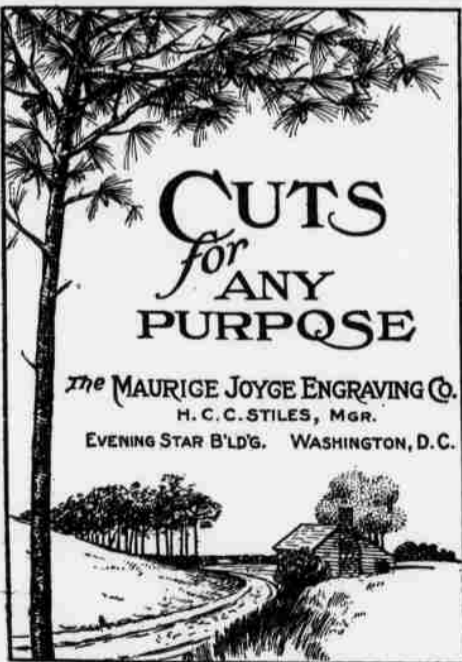

Don't let chance or the dealer decide what powder goes into your shells. Study your requirements. Order the powder that suits your needs.

"Infallible" is a smokeless powder that is not injured by the wettest weather or extremes of temperature. Its high velocity means a longer shot when needed and not so much of a lead on your bird at other times.

Other "Infallible" characteristics are—even patterns, light recoil and breech pressure always within safety limits.

Send for beautiful calendar in colors—"The Game Bird of the Future." Suitable for framing. Address Dept.

Mrs. West Wins Silver Foils Putting

Mrs. William West was the winner of Saturday's Silver Foils putting competition with a score of twenty-four. Mrs. Arthur Gage was second in twenty-eight.

Send THE OUTLOOK to friends! It saves letter writing.

BALLISTITE

SMOKELESS SHOTGUN POWDER for FIELD AND MARSH SHOOTING

WHY handicap yourself with an inferior powder? The successful hunting trip and its resultant joys depend largely upon the selection of the sporting powder.

YOU should therefore shoot BALLISTITE, a powder whose superiority has been proven at the traps as well as in field and on the marsh. Insist on getting BALLISTITE. It is

Absolutely Waterproof

Unaffected by climatic changes. Extremes of humidity and dryness make no difference with Ballistite.

YOUR top shot wad should read BALLISTITE. Your powder problem is then solved conclusively and satisfactorily.

BALLISTITE is loaded by the principal ammunition companies and sold in shot shells and in bulk by dealers everywhere. Booklet pertaining to BALLISTITE mailed free on request.
