Hand Trap at Gun Club

The addition of a DuPont hand trap greatly enhances the equipment at the Gun Club, for by this clever contrivance overheads, jack rabbits, curvers and twisters are possible in addition to the usual straightaways and right and left quarters, and you can make the distance anything from eight yards to eighty. ¶ This little "machine," which one can easily carry in a trunk, is about the cleverest innovation that has been introduced for the entertainment of trap shooters since the sport alluring first came into prominence.
