.22 CALIBER

## Automatic Rifle

The Winchester Model 1903 was the first and is the last word in .22 caliber recoil-operated rifles. It is not only handsome and well-balanced, but simple and strong in construction and sure in operation. This rifle is a light-weight, 10-shot, take-down repeater. It is only necessary to pull the trigger for each shot, which makes it easy to shoot rapidly with accuracy. It is a great sport maker. Compare this rifle with similar ones of other makes and you will pick a Winchester. It has been rightly called
