Townsend's Triplex

The Greatest Grass Cutter on Earth
Cuts a Swath 86 Inches Wide

Patent Pending

Drawn by one horse and operated by one man, the TRIPLEX MOWER will mow more lawn in a day than the best motor mower ever made, cut it better and at a fraction of the cost.

Drawn by one horse and operated by one man, it will mow more lawn in a day than any three ordinary horse-drawn mowers with three horses and three men. (We guarantee this.)

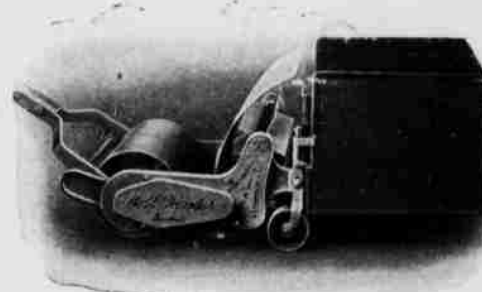

Floats over the uneven ground as a ship rides the waves. One mower may be climbing a knoll, a second skimming the level and a third paring a hollow.

Does not smash the grass to earth and plaster it in the mud in springtime, nor crush out its life between hot rollers and hard, hot ground in summer as does the motor mower.

Hundreds of Townsend's TRIPLEX MOWERS were sold during 1915. Their users all report that they have given excellent service and that they have made a generous cut in the cost of mowing.

TOWNSEND'S GOLF WONDER

was designed especially for putting greens of golf courses and other fine lawns. It cuts very

close and exceedingly smooth, and does not leave tracks in the sod. The patent revolving fan elevates all the cut grass into the catcher that holds every blade until it is emptied. Immediately after the GOLF WONDER has passed over the green it is ready for use. It will be found in active service on many of the foremost golf courses, parks and private estates.

Send for catalogue illustrating all types of TOWNSEND MOWERS.
