The Gorham Business

Started with forks and spoons

In fact, in the nomenclature of the table, *Gorham* Tableware is almost as well known as Irish Linen and French Cuisine.

There is in every fork and spoon we make, 85 years of cumulative experience to ensure the quality and enrich the design.

And speaking of designs, perhaps the only fault with the *Gorham* selections is that the variety is apt to embarrass the choice!

There are twenty-seven different and distinct patterns and each interprets some historical epoch or influence with the fidelity of a genuine affection.

But however the patterns and prices may vary in no wise affects the quality of *Gorham* workmanship, which is best described as a *habit of excellence which we will not overcome!*

Leading jewelers everywhere sell *Gorham*
Sterling Silverware and every
piece bears this trade mark
