The Absolute Dependability of Sutton's Grass Seed Mixtures

When you buy Sutton's individual varieties or mixtures, you get exactly what you pay for.

And further than that, you pay for pure grass seed only. The chaff is all taken out. All weed seed entirely removed.

Those of you who have been down to our establishment at Reading, England, and witnessed the workings of our numerous cleaning machines; and seen the seed going from one to the other; have marveled at the extent of the process and the number of cleaning machines. Sutton's Seeds must pass through. Your confidence was still further established, when you found that the complete process, from cleaning to germination tests, was continually under the direct supervision of one of the firm.

In comparing weights in buying, you will invariably find Sutton's Seeds run more pounds to the bushel, simply because they contain no empty shells—but live grass seed.

Although we carry a stock of seeds on this side; still in the height of the season, large orders may have to come from England. As a precaution, send your orders at least a month ahead of your needs.

You are welcome to a copy of our Red Book, on Golf Course Construction. If you incline to send \$3.75, we will mail you, the famous "Book of the Links," by Martin H. F. Sutton.
