

MAE MURRAY MAKE DEBUT**Jamestown of Old Reproduced for "To Have and to Hold."**

The beautiful Miss Mae Murry in pictures.

The fact was announced some weeks past and the production chosen by the Jesse L. Lasky Feature Play Company for her debut is "To Have and To Hold," from the novel by Mary Johnson of the same name.

Never in the history of the motion picture industry was a more elaborate and stupendous introduction prepared for any single star and it is said without fear of contradiction that the anticipa-

tion of her film debut will in no measure be greater than its realization.

will be a part of this production, is a

audiences for several years, and more recently has been prominent as one of the leading exponents of the modern dances.

On the Lasky ranch in Southern California, they are building an entire village representing Jamestown, Va., as it was in the days of the early 17th Century. When the Lasky Company decided to make this photoplay several months ago, a search was made for early American histories and the village being built has been designed from a sketch of Jamestown as it appeared in an English publication about the time of the story of "To Have and To Hold."

Among the historical features which

representation of the Council Meeting of the Jamestown Settlement, based on authoritative records now in possession of the Congressional Library. The Lasky Company is making every effort to give to this production absolute historical correctness. Probably no period in American history holds more vivid appeal to the imaginative mind than during those years between 1600 and 1640 when a new nation was founded on the Western Hemisphere.

The stockade village is perfect in all its details, and during the several weeks in which the photoplay is being made, the houses of this village are being used by the big cast of people as residences. Carolina Theatre, Monday, April 10.

This is a photograph of Grove Park Inn, Sunset Mountain, Asheville, N. C.,—the finest Resort Hotel in the world. It is absolutely fireproof and open all the year.

The 120-acre, 18-hole golf course is the finest in the South—it is a blue grass course. All the water used at the Inn comes from the slopes of Mount Mitchell, the highest mountain east of the Rockies, nearly seven thousand feet altitude. The milk and cream come from Biltmore Dairy on the estate of the late Geo. W. Vanderbilt.

It is the cleanest, most Sanitary hotel ever built. Every floor is tile. Every bedroom has Mosaic tile covered with French Rugs made at Aubusson, France. The foods are the finest money can buy. The kitchen is spotless white tile to the roof and pure white Mosaic tile floors. The buildings are built of great mountain boulders—some of the walls are five feet thick—boulders weighing as much as four tons each.

We are three and a half miles from the railroad. The street cars are not allowed to come near enough to be heard. We burn coke—not soft coal. Automobiles not allowed near the building during the night. Thus we have no smoke, no dust, no train noise. We have pure air, common-sense, digestible food, quiet in the bedrooms at night, the finest Orchestra outside of New York and Boston, a great organ, and an atmosphere where refined people and busy business men with their families find great comfort and a good time.
