

GETTING DOWN TO BUSINESS ARRIVALS AT THE HOTELS

Full Course Steeple Chase for \$100
Christmas DayDark Horse Challenges for the Mile
Race. Thomas Rides Hurd for a
Big Purse Next Wednesday

THE plans of the Jockey Club for the coming races show that the horses are deemed to be about in trim, and that the rivalry is becoming intense. On Wednesday the pacing event will be held over the full mile and the running horses will be called upon to win two out of three over $\frac{1}{2}$ mile instead of $\frac{3}{4}$ as hitherto.

Hurd on Traveller beat Rex last Wednesday, and this has led to an argument that will be settled to the tune of \$100 next week. The girls will be called upon to increase the distance of their ride and a good many more entries are recorded.

THE DARK HORSE

The most interesting of these is for the pace on Christmas. There is a large purse for this event, and a string of fast horses are being groomed for the occasion. But the most interest is centered in the rumor at the stable that a horse entered under the simple name of X, owned by X, and driven by X, is in fact one of the fastest in the country if not in the world, and is famous throughout the circuit. Personally we hope the mystery will not be solved until this wonderful dark horse either cleans up the crowd or else goes back to his pristine obscurity.

STEEPLE CHASE

On Christmas day the Pinehurst Steeple chase will be run for the first time this year over the full course for \$100 purse. A brass band will lend a flavor of county Fair week or the Grand Challenge to the occasion, and Col. Swigert's Jockey Club may then be said to be in full swing.

The program as far as made up for both Wednesday and Christmas follow:

PINEHURST JOCKEY CLUB

A BOY TO BE PROUD OF

FOR length they are unapproached. James M. Barnes drove a DUNLOP nearly 350 yards while winning the 1916 American Professional Golf Championship. You can not only drive farther but you can make the Dunlop "stop" on the green far more easily than the ordinary rubber-core ball.

And they last! Try Nos. 29 or No. 31 and you'll find that these balls take more punishment with less harmful effects than any balls made. *Ideal for sand greens.*
