Mr. Dodson, a director of the American Audubon Association, has spent 22 years learning how to build bird houses that attract the birds. Bluebirds, Wrens, and Martins, each must have its own special style of house. The right kind—the Dodson kind—brings back the bird families year after year. Their perfection has been a labor of love.

A big house like this will bring one or two families of Bluebirds to live with you next summer—cheerful, friendly and musical bird tenants that pay rent by contributing to the general joy of living.

If you want the birds next summer, get your houses now and set them up to "weather." The birds like them better.

**ANNOUNCEMENT**

To Those Who Are Going to Need Anything in Building Material

You have no doubt had the experience yourself, or heard a friend relate his, of having to wait for millwork to complete a job. Then after waiting and the material shows up, may be it is what you want and may be it is not. But you cannot wait any longer and you use it, not being altogether pleased. To relieve you of this trouble we are building an up-to-date plant for the manufacture of all kinds of building material. We will make a specialty of high grade work. We have bought a full equipment of the very latest and most up-to-date machinery. We have also ample dry kiln capacity to thoroughly dry our lumber. Have employed first class mechanics to do the work and are going to try to please you. We are ready to book orders to be filled after April first. Try us and see if we do not "Give you what you want when you want it."

**PINEHURST GENERAL OFFICE**

To the Patrons of the Pinehurst Postoffice, North Carolina:

I take this method to thank the patrons for their kindness shown to me during my ten years administration as Postmaster and I am sure I served them to the best of my ability.

With best wishes,

Rolin A. Barrett,

Retiring Postmaster.
