STEADY MAN Sole and Heel

makes the most practical golf shoe

The truncated cones on the sole are positioned precisely where the stance comes - - under the ball of the foot.

These cones prevent slipping. They grip the soil. They never tear the turf or green.

Lighter than ordinary "spiked" shoes, they're thoroughly com-Sewn to leather, fortable. Steady Man Soles and Heels do not "draw" the feet. Unnecessary to change shoes for luncheon or between games. They do not disfigure rugs or floor.

Fine, too, for the tennis court, or yachting.

Easily attached to your friendly old shoes, at W. N. Foye's. Ask your club "Pro" for them. Or, a line to us will ensure your getting them.
