**Like the prestige of dining
 in a famous restaurant,
 this fine old beverage assures
 successful hospitality**

ITS FLAVOR suggests the sophistication of smart restaurants. It has the graciousness of an accomplished hostess. It has the sparkle of witty conversation and its vigor is the vigor of aristocrats and sportsmen. Such is "Canada Dry." Such is the Champagne of Ginger Ales.

On the dinner table, watch it as the bubbles rise from the clear depths of a goblet. Notice your guests as they taste it! Can you find a beverage which pleases them more, with a subtler aroma, or which goes better with a meal?

"Canada Dry" has basic excellence. Its very foundation is "Liquid Ginger" — which we make from selected Jamaica ginger root by a special process. This process is exclusively controlled by us and, unlike any other method, retains for "Canada Dry" all of the original aroma and essence of the ginger root.

It comes in the convenient Hostess Package of twelve bottles. Hadn't you better order your supply today? Then you'll have it on hand!

"CANADA DRY"
