The Next Ten Years At Pinehurst

The census shows that Pinehurst has this year at the time of enumeration over 1,700 permanent residents in the village. Ten years ago Pinehurst did not have enough permanent inhabitants to be rated separately from the township.

The coming ten years starts with a nation that has added 17 million people to the number ten years ago. That is more than twice as many as all New England, or as many as the two big states of New York and Pennsylvania. What will the coming ten years add?

Well, what it will add is what it will do to Pinehurst.

The coming ten years will be a revolution here.

That is why this is the time to secure a home location in Pinehurst or the vicinity.

Lots of new people will pitch their tents in the Sandhills in the immediate future. Pick your location while you have the choice.
