The Future In the Sandhills

The future is foretold by the past. The man who prepares for the future lays his plans by the story of the past. Had we known in the past what the present has come to be we would have shaped our plans differently.

But we know, from the past and present, what the future is certain to be.

By that test you can tell the value of a home in Pinehurst.

information.*

The MIDLAND FARMS

Acreage Sites at Acreage Prices

The tendency among homemakers in the Sandhills is toward roomy spots outside the village boundaries. Not too far out, on the pine knobs between Pinehurst and Knollwood Village, the Midland Farms offer choice locations in lots of a few acres as may be desired, close by the Midland double road, close by everything, with all the utilities.
