The WORLD of TODAY

Mines Sowed by Aircraft

By the Associated Press

Great Britain claimed yesterday that Germany was sowing magnetic high explosive mines in shallow East Coast shipping lanes by means of small submarines and aircraft. A large number of these mines could be sowed by one aircraft, it was added.

British naval authorities plan to combat these magnetic mines with new wooden sweepers, vessels insulated from contacts that set off these mines and by intensifying air and sea control.

Eight vessels were added yesterday to the list of those sent to the bottom by mines or submarines, making a total of 25 in six days. The known shipping losses to all countries has reached 151.

This is the most expensive war in which Great Britain has been engaged, costing \$23,850,000 per day, according to official estimates.

Allied Pilots Claim Victories

Clear weather brought increased air fighting over the Western Front with the French and British claiming to have had the best of dog fighting deep in French territory over behind the West front.

British Charged With Sabotage

In Berlin officials claimed British agents were responsible for sabotage on German, French and Japanese ships since November, 1937 to November, 1938.

Elliot Roosevelt Attacks Lewis

Elliot Roosevelt, son of the President, declared in Texas last night that the January session of Congress would give organized labor a "frightful beating." He added that C. I. O. leader John L. Lewis was not as competent or able as he was cracked up to be and charged Lewis had failed to bring about a settlement of disputes between rival labor organizations.

The destiny of the Pacific coast fair is undecided. Just yesterday promoters said they had failed to raise enough money to assure a second season.

NEW YORK, Nov. 23—Tony Sarg, noted artist, has filed a petition in bankruptcy, listing assets of \$6,562 against liabilities of \$36,259.

The petition, filed yesterday, described Sarg as an "artist, lecturer, author, illustrator, painter and industrial engineer."

REYNARD IS SPARED IN INITIAL HUNT OF CAROLINA HOUNDS

Plenty of Action Occurs to Furnish Riders with Excitement, Culminating in Rescue of Quarry From Dogs

The Frank Buck theme of "Bring 'Em Back Alive," seemed to be the idea at the first fox hunt of the Carolina Hounds which was held yesterday. Forming at the Carolina Hotel at 7:30 in the morning, the hunting party was three hours in the saddle before a final result came about.

Nobody got the brush, but a lot more than that happened. The fox proved to be a trained Tar Heel by running up a tree. Then he jumped out and went on again, followed by the hunters and hounds. The horsemanship (Continued on page two)

Many finished with scores in the high eighties, figures higher than many of the participants have returned in years. Real Estate Men Agree Project Needed and Should be Located Somewhere on Midland Road

TO FORM CORPORATION

By Robert E. Harlow

For a number of years there has been considerable conversation in the Sandhills community to the effect that a sports arena, which would include facilities for a number of popular pastimes, would add tremendously to the attractiveness of the community.

Best thought on this subject has been that such an enterprise should not be undertaken by any single unit, but should be built by the combined efforts of every community in Moore County.

A definite step for the purpose of investigating ways and means for erecting a sports arena was taken last night at a meeting at the Pine Needles Inn, attended by a group of real estate men from the Sandhills, who had gathered for supper as the guests of Clifford Sloan.

Having partaken of a dinner which Mr. Sloan insisted was a supper, but which could have passed more easily as a banquet, the meeting was opened for discussion of methods which would prove beneficial to the future prosperity of the Sandhills community.

There was discussion concerning aviation, and it was brought out that in the next few years the development of air transportation, and flying as a sport, would advance as much as in the last 25 years. It was the opinion of the meeting that aviation should be included in such a development program as the one which is underway.

Those present agreed that the proper location for a sports center would be somewhere on Midland road.

A number of speakers voiced the sentiment that immediate action should be taken for the purpose of finding out what could be done about a sports arena, and it was decided to appoint a chairman of an organization committee. By unanimous vote Clifford Sloan was elected to this post, and he accepted.

Mr. Sloan will appoint members of the organization committee within a short time, and a meeting will be held for the purpose of forming a corporation, electing officers and perfecting plans. When a definite plan has been decided upon the project will be presented to the community for support.

Present last night were Mr. Sloan, Tom Miller, Harry Menzel, Emmett Boone, Col. George P. Hawes, A. S. Newcomb, Howard Burns, George Wallace, E. C. Stevens, Howard G. Phillips, Garland Pierce and Robert E. Harlow.
