

## New Lake Being Built Near Pinehurst

### Youth Wants to Know--

The "Exact Location of Hell," One of Many Fortright Questions Asked  
 Rev. Dr. H. J. Chidley

#### KIWANIS CLUB HEARS PASTOR

Youth is no worse and no better than it always has been. The youth of today is more sophisticated than 30 years ago because of the radio and the movies. Its geographic radius is larger on account of the automobile, said Rev. Howard J. Chidley, addressing Kiwanians of the Sandhills at their weekly meeting, held at the Presbyterian Church in Aberdeen yesterday.

Dr. Chidley, a guest at the Holly Inn, has been pastor of the First Congregational Church of Winchester, Mass., for the past 25 years.

Temptations of today's youth are greater than they used to be and therefore they deserve more credit if they go straight, he said. The youth of today is just as generous, just as responsive to the good as ever. It hates cant and pose on the part of its elders and detects it sooner. The community has a responsibility for the moral welfare of its youth as well as the physical and mental welfare.

But strange as it seems, he continued, we insure practically everything today but the moral welfare of our most valuable asset, youth. One difficulty with the church today in relation to youth is that it has only one string to its bow, namely, preaching, including the Sunday school as well as the pulpit.

"If any one church in a community cannot afford a place for youth to gather, for athletics, dancing, dramatics and social meetings, churches should combine with the community in providing such a place," telling of his experience in his own church. Adolescent youth is bewildered, somewhat unhappy, ill-adjusted, and lonesome, as it faces its expanding world, he told his audience.

Youth is also full of questions

### TERRELL, WHO BOXED JOE LOUIS, TO MIX WITH BRABOY HERE

The night of February 24 will be Pinehurst Fight Night at Ray Johnson's Amusement Center. The feature bout will be a grudge-gorilla meeting of Ralph Terrell, Rome, Georgia, heavyweight and Ham Braboy of Hartsville, S. C.

Terrell, a 27-year-old bruiser who packs a wallop that stood up against Joe Louis in New York just before his climb to fame and the heavyweight championship, also won a decision in '37 over Bearcat Obbie in New York and Ko'd the Atlantic Kid of Macon, Ga., two years ago. Braboy has won his last ten fights, and is now battling on the southern circuits at 215 pounds, while Terrell will check into the Amusement Center ring at 200 or so.

The highlight bout between these two hard-pounding toughies will be ten rounds, preceded by four preliminary engagements.

**WEATHER**  
 Fair, slowly rising temperature in west portion Thursday; Friday increasing cloudiness and warmer.

### A CHAMP DRIVER AND HIS NEW UNIFORM

Here is Happy, who, with his perpetual smile, has been driving the Carolina Hotel bus around Pinehurst for many years. Last week, Happy was presented with a new uniform, the personal gift of Mr. Leonard Tufts. Last year, the management of Pinehurst, Inc. gave Happy a new bus, shown in the background.

### PINEHURST SCOREBOARD

by ROBERT E. HARLOW

Gunnar Hockert, the world's greatest middle distance runner, who set new world records for the 3,000 and 5,000 meter runs at the 1936 Olympics in Berlin has been reported killed in action on the Karelian Isthmus. Hockert is the second internationally known Finnish athlete to die in this war. Birger Wasenius, ace speed-skater, was killed in action in December while leading a ski patrol across frozen Lake Ladoga.

It was only a few days ago that newspapers published a photograph of Hockert, on skis, with a rifle swung over his shoulder, on the snows near the Mannerheim line.

You can think of two dramatic views of Hockert. In 1936 in the Sport Arena in Berlin, breezing home in front of the world's foremost middle distance runners to the roar of the crowd and the hoisting of the Finnish flag on the victory pole.

In 1940 somewhere on the Karelian Isthmus, his broken body lying in red blotches on the snow, the world's fastest middle distance runner, stopped in his tracks, dead.

Lists of the dead and wounded brings war close. When lads "killed in action," have rated headlines on Olympic game stories, it takes the horrible business into your home in a more personal manner.

There is something thrilling about a battle at sea between British cruisers and a German pocket battleship. The identity of the men in action is seldom disclosed. We read of 12 inch guns, broadsides, hits, the dash for the harbor, and in the terrific excitement of the incident forget that men were being killed in action.

It is different when we think of a great athlete lying dead on the Karelian Isthmus. Perhaps we had anticipated watching him win the 3,000 meter final at Helsingfors this summer in the 1940 Olympic games.

### Bathing Beach, Boating, Fishing Planned At Pond, Which Will be Beautified

#### SAND COMPANY LAYOUT

Within 60 days a beautiful body of water to be known as Lake Chapin, will be added to the attractions of the Sandhills country, according to officials of the Aberdeen Sand company and W. M. Herndon, Pinehurst, manager of the S. B. Chapin Orchards.

The lake will be east of Pine Bluff road, one half mile south of the main Pinehurst and Aberdeen highway. It will be about one-half mile in length, running south to northeast, and will be 27 feet at its greatest depth.

While the purpose of Lake Chapin will be to furnish water to wash sand for the Aberdeen Sand company, which is spending \$10,000 in construction of a dam, the lake is being built according to specifications of S. B. Chapin and Mr. Herndon, who plan to beautify it and establish picnic grounds, a sand beach, boating facilities and stock it with fish.

It is likely that later a beach house will be built.

### STORM Worst Blizzard of Year Pounds the Atlantic Seaboard

By The Associated Press  
 NEW YORK, Feb. 14 — The worst blizzard of the year pounded the Atlantic seaboard all day and tonight with a blinding mixture of snow, rain, sleet, wind and fog.

The storm, screaming up from the south and funneling as it spread, reached a 100 mile an hour crescendo on top of the Empire State building and dropped the burden of deepening snow and ice over a dozen states.

The freezing gale winds, strongest since the 1938 hurricane, ripped a 500 million dollar path of destruction across Long Island and New England, left a trail of traffic deaths and wrecked power lines and harried shipping. The storm blocked highways with snow drifts up to 20 feet deep, and grounded commercial air traffic from Ohio to Boston.

### HEADLINES IN TODAY'S METROPOLITAN PRESS

President Kallio of Finland announced last night that his country would fight on, although outnumbered "fifty to one" as more men were called to the colors and the Mannerheim line held against the greatest assault since the world war.

The president stated that Finland "must have material help from foreign nations or face extinction."

Viipuri, Finland's Karelian city was bombed repeatedly yesterday.

Finland conceded the loss of a few important positions, and in Moscow, Russia claimed substantial advances had been made and additional fortifications taken.

### H. Churchill Bragaw At Forum Tonight

At tonight's Forum, at which H. Churchill Bragaw will present in colored pictures the scenes of Orton Plantation, it is hoped that the present owners of the plantation may also be in the audience. They have been invited by Stanley D. Fobes, through whose courtesy tonight's audience will enjoy these films, but as yet Mr. Fobes has not heard whether or not they will be able to attend.

Anyone interested in a preview of what will be shown tonight need only go to Sam Lacks, the first man seen on entering the Carolina, and ask him to show some of his photographs of the place. Mr. Lacks is most obliging in showing brochures of the plantation, or giving route directions. Apparently the frigid weather did not harm this year's flowers, for the camellias are already in bloom.

past 24 hours. British now claim they have sunk 40 subs since the war started.

Germany yesterday informed the Americas today that the British and French viewpoints "must be revised" before she could consider the American safety zone.

Great Britain yesterday gave her citizens formal permission to fight for Finland.
