This is the largest potato we have heard of being raised in the county. Mr. Hardin goes up head.

Sweet Words.

A sentimental editor out in Kansas asks: "Are there any sweeter words in the English language than 'I love you'?" Perhaps not, but the words "Here's that dollar I owe you on subscription" are not lacking in delightful enunciation to the ear of a newspaper man.—Raymond (Ill.) Independent.

NANITO NEWS.

School Opens--Thanksgiving Services--Prof. Morrow Dead.

Correspondent, THE TRIBUNE.

NANITO, November 24th.—We are still having nice spring-like weather, roses in bloom and cotton blossoms still to be seen. After all this nice warm weather the cold chilly winds will pinch us all the more when they do come.

Our public school is in progress with Rev. Z. T. Whiteside as principle. Miss Mamie Lattimore, of Cleveland, Miss Sallie Jane Whiteside and Mr. James Wash Whiteside, of Uree, are attending our school. Others are expected to come in next week. Professor Whitesides intends holding thanksgiving services on Thursday afternoon. This is a step in the right direction, for indeed we have many things to be thankful for.

Mrs. Mary Morrow, of Forest City, is visiting relatives here this week.

Copper Bill tells us that a party consisting mainly of young men passed his way Saturday on a big rabbit hunt. They reported twelve caught, besides one that hung itself in the Doctor's garden and was baked nice and brown and served on the Doctor's table Sunday. Brown can get feet now without waiting for it to snow, if he will come down.

Mr. Lee Haynes made the Doctor grin behind his ears by giving him a nice Havana when he settled off his store account. He intends settling all his accounts as soon as possible for every time he pays one he gets set up to something nice.

Copper Bill promised to tell a possum story and it is as follows: Away back when the Doctor was young and spry, he, with some other boys, made up a hunt for a certain night. After feeding the dogs and instructing the women folks to have plenty taters roasted when they returned, they started out, the Doctor leading the way. Pretty soon the dogs struck a trail and over the ridge they went and could be heard barking down in the hollow. When they reached there they found the possum had gone up a tree, notwithstanding it was pretty dark. The Doctor threw off his coat and up that tree he went and began treading the limb on which he had discovered the possum, badly scared. But the Doctor's turn to be scared had come for just as he was in reach of the possum the limb began to crack, and falling down he clung to the limb and in broken tones cried: "Boys I am in awful danger and I want you all to pray for me." Falling down on their knees they began to pray. All this time the limb was popping and cracking and as it suddenly gave way he exclaimed, "Boys get out, I'll bedogged if I ain't falling."

The limb fell against the side of the tree, and the boys say the Doctor wore out a new pair of pants in his hurry to get to the ground, and when he found himself once more on a sure footing he struck out for home without the possum. When they got home the Doctor didn't want any of the roasted taters but retired, asking the boys to cover up the fire, as he was afraid of matches. During the night he dreamed he was a large bull frog on the bank of a mill pond and saw some ladies coming and thought that he would jump kerchug into the pond for amusement and to hear them scream. Instead of jumping into the middle of the pond he lit on some chairs near his bed, nearly ruining them. Since having so much bad luck he decided to stay at home, write what he knows and tell nothing any other way. Copper Bill says if this does not beat Brown's possum story he knows one that will and will tell it for Christmas.

Rev. J. B. Thorn, of Forest City, was with us Saturday and Sunday and preached two interesting sermons.

Rev. Z. T. Whiteside delivered a good sermon on last Sunday, at our public school house. This building has just been completed and is built in modern style and we pronounce the workmanship first class.

Col. W. W. Horn and Mr. A. E. Flack, of Cuba, and Mr. W. N. Spangler, of Darlington, attended the old soldier's reunion at Shelby last week.

We are sorry to note the death of Prof. A. C. Morrow, who we learn departed this life this morning. We extend our profound sympathy to his grief-stricken companion.

He Could Hardly Get Up.

P. H. Duffey, of Ashley, Ill., writes: "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down." Sold by The City Drug Store.

There are 13 cases of smallpox at the post house in Charlotte. Two of these—both colored—are expected to die.

W. A. Herron, of Finch, Ark., writes: "I wish to report that Foley's Kidney Cure has cured me of a terrible case of kidney and bladder trouble that two doctors had given up." Sold by The City Drug Store.

THE LONG AND SHORT OF IT.

Advertising is the champagne sparkle of business. If you have a good thing, you owe it to the public to advertise it.

How are the people going to know why they should trade with you if you don't tell them? People will read the news about your goods and store just as readily as the news about anything else, if you make it fresh, crisp and interesting. Because you never have advertised your store is a good argument why you should advertise it now. The mere fact of your departing from your usual custom will prove an attractive ad. of itself. There used to be a saying: "One might as well be dead as out of fashion." Paraphrased, "One might as well be dead as unknown," it is equally true and embodies much of the philosophy of advertising. The value of continuous advertising lies in the fact that people get to believe in the merits of an article whose name is familiar, even if they forget what its merits really are. The articles exhibited in the show windows of a store should be of such a character as to attract, not a crowd of curious idlers, but prospective purchasers of the goods sold. So, with the advertisement.—Ex.

A Policeman's Testimony.

J. N. Patterson, night policeman of Nansu, Ia., writes: "Last winter I had a bad cold on my lungs and tried at least a half dozen advertised cough medicines and had treatment from two physicians without getting any better. A friend recommended Foley's Honey and Tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." The City Drug Store.

The State's Vote.

We copy from our contemporary, The Morning Post, of Raleigh, the vote of Aycock and Adams, in 1900, and of Joyner and Long this year. We do not know where our contemporary got its figures on the vote of this year, for this vote is not to be officially canvassed until the 27th of this month, but it is generally accurate in its figures, and these are interesting. Aycock received 136,450 votes and Adams received 123,266. Joyner 29,354. Joyner received 135,733 and Long 68,121—Joyner's majority 67,602, or 8.24 in excess of that of Aycock. There was a large reduction in the vote of both parties, the larger reduction being, of course, in the Republican vote, on account of the exclusion of the negro. Reduced to figures, the Democrats polled 50,926 less votes this year than in 1900, and the Republicans 63,169 less.—Charlotte Observer.
