RUTHERFORDTON, N. C. THURSDAY, MARCH 19, 1903.

\$1.00 A YEAR.

MRS. L. S. ADAMS.

Wine of Cardui is indeed a blessing to tired women. Having suffered for seven years with weakness and bearing-down pains, and having tried several doctors and different remedies with no success, your Wine of Cardui was the only thing which helped me, and eventually cured me. I succeeded in building up the weak parts, strengthening the system and correcting irregularities.

By "tired women" Mrs. Adams means nervous women who have disordered meneses, falling of the womb, ovarian troubles or any of those ailments that women have. You can cure yourself at home with this great woman's remedy, Wine of Cardui. Wine of Cardui has cured thousands of cases which doctors have failed to benefit. Why not begin to get well today? All druggists have \$1.00 bottles. For any stomach, liver or bowel disorder "The Lord's Black-Draught" should be used.

For details of literature, address, prices, etc., send for the Ladies' Advisory Department, The Ladies' Medicine Co., Chattanooga, Tenn.

## MANY DEATHS ARE CHARGED TO NEGRO

Offered Sure Relief to Those In Domestic Trouble.

ADVERTISED FOR HIS CLIENTS.

Bodies of Thirty-Four Persons Believed To Be Among his Victims Will Be Exhumed and a Thorough Investigation Made.

Philadelphia, Mars. 17.—The police officials have directed the opening of 34 graves, having secured evidence that leads them to believe that George Hossey, the negro "herb doctor," is responsible for at least that many deaths. Hossey is in jail as an accessory to the murder of William G. Danze, whose widow is charged with having administered to her husband slow poison. "We do not know how many poisoning cases can be traced to Hossey," said a police official today, "but thus far we have secured evidence that has warranted us in directing the opening of 34 graves. This case is assuming proportions far beyond the comprehension of those connected with it at the time Hossey was arrested. The real investigation is just beginning and before it proceeds much further startling developments will crop out."

Detectives are searching for a white woman who is alleged to have reported to the preliminary dealing with his patrons. It is claimed that Hossey advertised openly that he had a better way of remedying domestic troubles than by way of the divorce courts. He had many calls from both sexes for assistance. His plan is said to have been to supply the applicant with a slow poison to be administered to the objectionable party, for which he is reported to have received a uniform fee of \$100.

## APPEALS FOR PARDON.

Man Who Married Payne Strahan Wants His Liberty.

New York, March 14.—William A. E. Moore, who is serving a 19-year sentence in Sing Sing prison for robbery in the first degree, and who was convicted of having forcibly robbed the late Mahon, proprietor of the New Amsterdam hotel, at the Hotel Metropole, on the night of Nov. 4, 1898, is making another effort for liberty.

District Attorney Jerome was served today with a notice of motion returnable before Recorder Goff on Monday to renew a motion made in 1899 for a new trial, on the ground of newly discovered evidence. The motion to set aside Moore's case being sent to prison, had secured the services of the men whose testimony would have been valuable at the first trial could the witnesses have been produced at that time.

Moore was indicted with his wife, Payne Moore, of Atlanta. He was convicted, but the jury in Payne Moore's case disagreed. She was not brought to trial again.

## TO OPEN PUBLIC LANDS.

A Million Acres in California Will Soon Be Allotted to Settlers.

Los Angeles, Cal., March 16.—The United States through the Federal land office at Los Angeles will open to settlers within the next thirty days about one million acres of land in California. The land is situated between The Needles and Mojave, and borders the Colorado river. Much of it is valuable agriculturally.

The prospective throwing open of this vast tract to settlement is the result of a recent decision of the United States supreme court with respect to the famous grant made to the Atlantic and Pacific railroad by act of July, 1866.

In the territory which embraces this great tract the Southern Pacific is selection privileges. Authority is given the receiving of entry applications for the 1,000,000 acres in question has been received from Washington to the officials of the United States land office at Los Angeles.

## DEMOCRATIC SENATORS CAUCUS.

Will Support Two Amendments To Canal Treaty.

Washington, March 16.—The Democratic senators at their caucus today resolved to stand together in the senate in support of two amendments to the Panama canal treaty. One of these provides for the modification of the 23rd article of the treaty so as to insure the control of the canal zone by the United States, and the other enlarges the provision in the fourth article of the treaty which is a disavowal of any intention on the part of the United States "to increase its territory at the expense of Colombia or of the sister republics in Central or South America," so as to include Mexico.

All the Democratic senators except Messrs. DuBois, Culberson, Morgan, McClaurin, Clark (Ark.) and Gibson were present. It is the understanding that all the Democrats will support the two amendments agreed upon, but that after they are acted upon, individuals shall be at liberty to vote for or against the treaty as they may elect. It is also the understanding that some of the Democratic senators will support some of Senator Morgan's ideal amendments, but that they will do so as individual senators and not as members of the Democratic caucus. The Democratic senators who participated in the caucus say that whether amended or not, the treaty is sure of ratification.

## DEAF CAN HEAR, DUMB CAN SPEAK

Wonderful Invention Of An Alabama Man Tested.

WAS DECORATED BY ROYALTY.

Believed that the Invention Also Enables Blind To See—Mutes Utter Words and the Deaf Are Delighted by Sousa Marches.

New York, March 14.—By means of an invention of Miller Reese Hutchison, a young Alabamian, who was recently decorated by Queen Alexandra for his efforts in behalf of the deaf, three children, deaf, dumb and blind, have been enabled to hear a pianist play Sousa marches, a phonograph repeat the sounds and the sounds of their own voices uttering the words "mamma," "papa" and "hello" in quavering childish treble. The experiments were made at the laboratory of Mr. Hutchison and were witnessed by many persons.

The invention consists, primarily, of a transmitter, an ear piece and a small electric battery. By means of these instruments sound is projected into the ear in a manner to stimulate the auditory nerve. The volume of sound has nothing to do with the penetrating quality of the electric sound wave apparently disregarding the mechanism of the outer ear and affects the inner ear direct.

The first patient brought out to try the effects of the invention was Orris Benson, who is blind, deaf and dumb. A physician tried to make him hear in various ways, but all his efforts were in vain. The little instrument was then clapped to the lad's ear, the current switched on, and Mr. Hutchison said in an ordinary conversational tone "papa." The youth worked his fingers rapidly in the sign language.

"He says he can hear something, but doesn't know what it is," remarked Professor Vantassel, who was in charge of the children. The current was made stronger. The youth's eyeballs were raised and he smiled. They he tried to repeat the syllables and in a wondrous treble cried shrilly "pah—pah." Noticing that the patient was becoming quite excited over his novel experience, Mr. Hutchison suggested that one of the girls be brought into the reception room. A girl 18 years old who had lost sight and hearing through exposure a dozen years ago, was led into the room.

She could not hear a sound, no matter how loud, right against her ear, but when she had the ear piece of the instrument fastened to her head and the pianist at the end of the room began to play a Sousa march, her cheeks flushed and her fingers beat time on a table.

Another girl, born blind, deaf and dumb, clapped her hands in ecstasy when she heard her own voice say "mamma," and reached out wistfully toward the piano when the musician stopped playing and the new harmonies died out of her ear, but lingered in her memory.

## CALLED OUT AND SHOT.

Quarrel Leads to Killing of Young Farmer in Alabama.

Birmingham, Ala., March 14.—A special to The News from Montevallo, says that at an early hour this morning Will Lucas shot and killed John Payne, near that place.

After midnight the Lucas brothers returned and called Payne out of his house, when Will Lucas, it is stated, fired both barrels of a shotgun at Payne, instantly killing him.
