

Graham Memorial Building.
Chapel Hill, N. C.,
Feb. 2, 1919.

Editor Post-Dispatch:
The trustees and faculty of the University of North Carolina, have decided to wage a campaign, beginning March 10th, for a fund, with which to erect a building in memory of the late President Edward Kidder Graham. The building is to cost \$150,000 and is to be one which has long been needed upon the campus and for which President Graham was

planning at the time of his death. It is to be centrally located upon the campus, and is to serve the people of the whole state. It is to contain accommodations for all the various student activities which are now scattered over the campus with no adequate accommodations. It is to contain an adequate Y. M. C. A., a good and much needed auditorium, reception rooms for alumni and students' parents and any other visitors at the University, besides other accommodations. The

students of the University have been organized behind this movement, and the students from each county are to work in conjunction with the committee in their county, for the furtherance of the campaign and each county has one representative on a general committee from the student body. Each student has been asked to write to his parents and ask them to use their influence in the campaign. The coming campaign, therefore, is expected to carry with it the good will of the people from all sections of the state.

H. S. EVERETT.

A Monument to the Boys.

Mr. London,
Editor Post-Dispatch,
My dear Mr. London:—

I feel, somehow, that I should like to see erected in our midst, a lasting tribute to the bravery and self sacrifice of those who have fallen in our recent battles in France. Little do we know and feel what these boys of ours have endured, without complaint. Little do we know how some of them died, not thinking of self, but that we, who did not go, may enjoy the blessed privilege of living in the land of the free, unmolested by dominating influences of the Kaiser.

In this connection and to this end, I desire to offer you a subscription of twenty-five (\$25.00) dollars, on demand, when such a sum has been raised, commensurate to the dignity of this occasion and the pride of our country, for the erection of a monument to this cause, together with those of our heroes of the Confederacy. I think that through your good offices this start may soon finish and that our people will see to it, that what is this day done, may be for the glory of those who have so beautifully represented us at home.

Very sincerely
W. E. HARRISON,
Pres. and Treas. W. E. Harrison & Land Co.

Alex Monroe Writes.

Mont Dore, France
Jan. 7, 1919.

Dear -----:
As a girl would say, I'm very much thrilled tonight, and what I'm about to write may be very tiresome to you but it is certainly interesting to me.

Firstly:—I am way up here in the mountains on a ten-day furlough, in the most beautiful country I have ever seen stopping at a famous resort hotel, and best of all Uncle Sam is paying for it at 16 francs (\$3.50) per day. I will not try to give you the complete history of this place—an encyclopedia will do that?—but just to show you what kind of life I'm living, and to prove that Uncle Sam is the greatest sport of them all,—the following goes:

The French people have tendered the American Expeditionary Forces all the famous resorts and Resort Hotels for rest and recreation centers. This place (Mont Dore) is supposed to be the second fastest resort in the world, Monte Carlo of course being first. There are 1200 men here from the 6th Division and we are all stopping at these swell hotels. The place is something like Pinehurst only there are about twenty big hotels, and I'm writing this letter in the big Casino, which is the most luxurious and beautiful building I have ever been in. It is now being used by the Y. M. C. A. and there are reading and writing rooms, a big ball room, theatre, a saloon (closed now) and gambling rooms all in the same building. It is said that Harry K. Thaw lost over a million dollars in this very room in a single night, and here he spent his honeymoon with the famous Evelyn Nesbit Thaw. The place is situated in the very heart of the mountains, about 4,000 feet above sea level; there is about eight inches of snow on the ground now, and the scenery is just too wonderful to behold. There are about 25 men and 16 girls here with this Y. M. C. A. and last night we had a real dance with a jazz band and real American "vimsins."

The famous Thermal Bath is also here, and the bath house itself is a sight to see; this whole place seems to be a miracle—a place where the idle rich of all nations used to gather to drink, gamble, feast and flatter the beautiful women. I never knew the army afforded any such life as we are being treated to, and it is really hard to believe that I'm a corporal—the way I'm being treated here, I see more like a General or the like."

Alex S. Monroe,
Headquarters 6th Division, Division Surgeon's Office, A. P. O. 777.

**DODGE BROTHERS
MOTOR CAR**

I can make reasonable prompt delivery on Dodge Brothers Motor Cars as follows:
5 Passenger Touring. 2-3 Passenger Roadster.
5 Passenger Sedan. 2-3 Passenger Coupe.
Light Delivery Car, Screen or panel sides.
Ton to 2 1-2 ton Truck.
