JOB WORK A SPECIALTY

Trades unionism is an excellent thing; it is a weapon against the tyranny of capital.

Capital is a necessary thing; without it no industry can develop.

But the overdevelopment of either is dangerous to democracy—and democracy must survive and must rule. When either capital or unions attempt to dictate and be master rather than servant of the public, our freedom and national existence is menaced by a disaster as grave as invasion by a foreign foe.

Radicalism either on the part of unions or capital will accomplish no good result.

Will fire burn? Is water wet? These are as pertinent questions as "will a lion bite." Robinson's circus was in Sanford last week, and Alex Calcutt, of Swan Station, stuck his hand playfully through the bars of a lion's cage to see what the animal would do—and before he could be rescued his hand was fearfully mangled and torn. He found that a lion WILL bite.

Squire R. M. Burns, of Pittsboro, celebrated his 84th birthday several days ago by having a big possum and tater dinner. The Squire is hale and hearty, and is living in spite of a possum diet.

They have been rowing in New York lately over permitting German opera. Public songs in German should be barred until the German is purged of the bad taste it leaves in the mouth.

According to wood-lore there is a hard winter in prospect. The persimmon trees are loaded with fruit, and nuts are plentiful.

Our office devil insists that beauty is only skin deep, as they claim. But, he adds, some people have a hide as thick as a walrus.

"It is a wonderful treaty," and "it is a conglomeration of treason." All according to the way you look at it.

The United States, while forming 6 per cent of the world's population, consumed last year 25 per cent of the world's sugar production. The average per capita was 83 pounds, while in 1870 the per capita was only 33 pounds. The consumption for the year ending June, 1919, in the United States was nine billion pounds, as compared with four and a half billion pounds in 1900.

Col. Theodore Roosevelt's estate is valued at \$810,607, according to affidavits recently filed by the executors.

It's quite aristocratic to take your tea and coffee straight now, you know. Only the vulgar minded seek to cut a dash with a lump or two of sugar.

RED CROSS GIVES FULL ACCOUNTING

War Council Tells How Millions Contributed by Public Were Used For Relief.

BIG TASK IS DESCRIBED

In Twenty Months \$154,000,000 Was Spent Overseas and \$119,000,000 in the United States.

Washington, (Special.)—Through a complete report of the work of the American Red Cross in the war by Chairman Henry P. Davison, on behalf of the war council, the organization on the eve of its annual enrollment of members during the Third Red Cross Roll Call, November 2 to 11, has rendered an accounting of the many millions given it by the American people to help our fighting men and our allies. The statement is, in part, as follows:

"The war council of the American Red Cross is now prepared to make a complete accounting to the American people of money contributed and expended, as well as the work done by the American Red Cross during the period in which the war council was in control of its affairs. The war council was appointed May 19, 1919, and went out of existence February 28, 1919.

"It was the practice of the war council to give complete publicity to its policies and finances, but it is only now that a picture of the war period as a whole can be presented. It is the feeling of the war council that a report in this summarized form should be made directly to the public which provided the money and gave the effort which made the American Red Cross a success.

"A statement of the American Red Cross effort and finances since the war council relinquished its control will be made to the public through the executive committee, and it is important, therefore, that the fact that this report covers the period only until March 1, should be carefully noted."

Following are certain round figures covering American Red Cross participation in the war, as revealed by the war council's report:

PEPTO-MANGAN MAKES RED CHEEKS

Builds Up Tired Bodies—Helps Change Pale Complexions to Bloom of Health

The healthy, attractive woman—and man too—with a wholesome complexion is the envy of those who feel that, for them, such attractiveness is impossible.

And yet health and attractiveness are much a matter of good, red blood and unless a man or woman is afflicted with some deep-seated or serious ailment, vigorous health, and personal charm are within easy reach.

Pepto-Mangan is responsible for the present health and happiness of thousands who formerly were thin, pale, languid and easily exhausted. Pepto-Mangan helped place these folks in the full-blooded, energetic, vigorous class—and it probably can do the same for you.

Pepto-Mangan contains the elements that make rich, healthy blood. And as a result of the increased supply of red blood that Pepto-Mangan creates, the entire system attains the vigor that belongs to every man and woman.

Pepto-Mangan is prepared in two forms, liquid and tablets. They are exactly alike in medicinal value.
