RECIPE FOR SUCCESS

Marshall Field had a recipe for success. It was this: "If you would succeed in business always spend a little less than you earn. No matter how small your earnings you should master this art." James J. Hill, the railroad builder, said: "If you want to know whether you are destined to be a success or a failure in life, you can easily find out. The test is simple and infallible. Are you able to save money?"

Health turns the Clock Backward

Bright's Disease Getting Rid

Thursday Health Talk 12
By Mary Lou Miller,
D. C. Ph. C.

The coming on of Bright's disease is always gradual. The first indication is usually puffiness of the eyelids, weakness and general ill health. The urine is scanty, highly colored, and contains albumen. As the dropsical condition increases, it interferes with respiration and requires the sufferer to keep an erect position.

This disease is caused by a disturbance of the spinal joints at what is called "kidney place." In severe cases, such as Bright's disease, the misalignment of the "kidney place" is so great as to cause practically a paralysis of the kidneys. Instead of disposing of waste, the kidneys become inactive, and the wastes poison the body. Chiropractic spinal adjustments bring back a normal action of the kidneys and that means a disappearance of the dropsical conditions and a gradual return to health.

Found Recovery Through Adjustments.

"From 212 I dropped to 168 pounds. Two specialists called it Bright's disease. After taking chiropractic for two months I was again able to do my farm work."—John Briney Chiropractic Research Bureau, Statement No. 1252.
