Use a gallon out of any you buy, and if not the best paint made, return the balance and get all your money back.  
Sold by Dealers **LONGMAN & MARTINEZ, Makers, N. Y.**

**As easy as turning the waffle iron!**

Every sack of Occo-nee-chee Flour carries this Indian Head

**THAT'S** really about all the effort there is to making waffles with Occo-nee-chee Flour. You make the batter by mixing with water or milk—add shortening and it's ready for cooking before the waffle iron is hot. No baking powder, soda, or salt to measure out, they're already in the flour.

And what light, tender waffles always come off the iron when you use Occo-nee-chee Flour. Your fork crackles through their tempting, brown crispness with the slightest pressure.

Occo-nee-chee Flour is just as good and as easy to use for making delicious biscuits or hot cakes. And it's more economical than buying the ingredients separately.

Get one of those plump sacks of Occo-nee-chee Flour from your grocer. It has the Indian Head on the outside.

**Farm Demonstration Department**

Conducted by **W. H. BARTON**  
Office in Court-house, Rockingham.

**Something Started.**

I am glad that my first invitation to the people of this county to call on me for aid, has brought requests sufficient to keep me busy. I am even now at least a week behind with my engagements.

In addition to other work, I have pruned 495 trees (a few for each man); run 101,500 feet of terraces (a few for each man); secured the cooperation of farmers for grading approximately 1000 bales of cotton by a government grader, in the court house, April 5 and 6; a Jersey Association has been formed with three bull blocks practically assured; a steam cooking sorghum plant assured with a daily capacity of 1000 gallons per day, and acreage sufficient pledged to produce approximately 60,000 gallons high grade syrup that will bring \$30,000 to \$40,000 income to the

community the first season; and a similar, smaller capacity plant in sight for another community. Farmers have already bought approximately 1000 bushels of velvet beans and I feel that my advocacy has had a little to do with this result.

**But I Am Most Pleased**

with the fact that complaint has been made to my district agent that I have visited only those making requests for my services. This proves that Rockingham county farmers are interested in their own business and that they have not reached that dangerous, hopeless condition of believing that they know it all.

**I Am Really Sorry**

that I have been unable to visit every body and to do all they want done. However, I beg that it will be remembered that I must spend Friday afternoon in Hamlet office and Saturday's in Rockingham office, and that this leaves me only 235 days for work, including stormy weather. In this time, if I were to visit 13 farms per day, it would require a year to cover the county—even then I probably should find that I had wasted time in hunting up a few who know it all.

**What I Am Not.**

I am not a man to do things for farmers so much as to help them (largely cooperatively) to do better things for themselves and for their communities.

**The Two Great Needs at Present Are:**

1. **Soilbuilding** through diversification and rotation, resulting in increased production on less acreage, at less cost—"living at home and boarding at the same place."
2. **Cooperative Marketing** through the South's Cooperative Marketing Association which will finance its members and hold cotton until the world will pay a profitable price. All counties in North Carolina worked to date, show that 80 to 90 per cent of the farmers approached have signed up for a five-years membership. The farmers of this county will soon have an opportunity to reap the benefit of this organization which has [the same plan] increased the price of California raisins and prunes from 4cts to 15cts. The grain growers, the livestock producers and the tobacco growers of America are organizing on the same plan. The farmers, therefore, will soon be in position to get the 55cts of each dollar's worth of produce that has heretofore gone to the speculator corporations.

If you are not informed on this subject, I beg that you begin at once to study the merits of this organization, and be prepared to intelligently act in your own interests at an early date.

The future for farmers means either co operation or corporation. One of these will fatten on the products of the farms. Which shall it be?

[Buy velvet beans.]  
W. H. Barton.

**After Thorough Trial a Detroit, Mich., Man Endorses Pe-ru-na**

The following letter written from Detroit, Michigan is no snap judgment expressed on the merits of Pe-ru-na, the well-known catarrh remedy, but rather a mature, sober opinion formed after a full year's trial.

This is the way Mr. Michael Fako of 908 East Palmer Avenue, in the Michigan Metropolitan, writes: "After using PE-RU-NA for about one year will say I have found it a very good medicine for catarrh. It has helped me a great deal and I am very well satisfied. I have gained in weight, eat and sleep well, my bowels are regular and better color in my face."

"PE-RU-NA has done wonders and to me is worth its weight in gold. I shall continue to use PE-RU-NA as long as I live and recommend to my friends who are troubled with catarrh. Nothing can be more convincing than an endorsement of this nature from an actual user. There are many people in every community whose experience, in using Pe-ru-na, has been identical with Mr. Fako's. It is the standby for coughs, colds, catarrh, stomach and bowel disorders and all catarrhal conditions. Put up in both tablet and liquid form. SOLD EVERYWHERE."
