Healthful Kidneys a Summer Comfort

Thursday Health Talk 22
By **Mary Lou Miller**,
D. C. Ph. C.

Sufferers from any form of kidney trouble endure more misery in the heated season of the year than at any other time. When the kidneys are acting properly, the perspiration is normal and Nature keeps the body at an even heat regardless of weather.

Healthy action of the kidneys depends upon a constant free supply of nervous impulses. The cause of kidney disease is disturbance of the alignment of spinal joints, causing pressure at "kidney place" upon spinal nerves to the kidneys. Usually kidney sufferers are conscious of pain or tenderness at this point. Chiropractic spinal adjustment restore the alignment, and remove the cause of the disease.

Had Bright's Disease and was Given Up

I was advised that I had Bright's Disease of the kidneys and was under the care of two physicians who said that I would die. On January 14, I began taking chiropractic spinal adjustments. Under continuous adjustments in April I was well. The dizziness, the pain in my head, the swelling over my body, and the constant pain over my kidneys are all gone.—G. W. Maness, Statement No. 1265L.

Dear Miss Hecklin:—
A new Cecil B. De Mille picture! If you've seen "Male and Female", "Why Change Your Wife?", or any of the other brilliant De Mille productions, you know what a treat that means.
The latest De Mille picture is called "Something to Think About". It's refreshingly different from anything he has ever attempted before. The story is a bout plain folks and deep in its heart appeal. A country girl who allows a sudden infatuation to sweep her away from the man she really loves is the central figure.
Beautiful Gloria Swanson is the heroine and Elliot Dexter, whom you liked so well in "For Better, For Worse", plays the leading male role. Such favorites as Theodore Roberts and Monte Blue are also in the cast. It's a Paramount picture.
Produced with all the De Mille artistry, "Something to Think About" is bound to delight you. We will show it Friday, July 1st. May we expect you?
Sincerely,
W. G. Atkinson,
Manager
