

# Money Never Saves Itself

If you want to have money you must do the saving yourself. Money doesn't care who gets it or keeps it. The best way to save money is to have a bank account. Deposit your savings and forget to draw them out. They grow more rapidly than you would think. Soon you will be earning money with money instead of by your daily toil. That is the road successful men travel.

What is your living expense bill per month? Open a checking account and pay ALL of your bills by check. Then you will always know just where you stand. It is the SAFE way, and decidedly convenient and satisfactory.

This bank welcomes your business and accords every depositor, large or small, every courtesy and consideration.
