Obituary-Mrs. O'Brien. (Contributed)

Died March 15th, 1922, Mrs. Martha Jane O'Brien, wife of James W. O'Brien. This good woman was a daughter of the late Lafayette and Nancy Loom. She was born in the latter part of the year 1857 and was a little past 70 years of age. At an early age she joined the Methodist Church at old Green Lake, remaining a consistent member until the end. She was the mother of 11 children, 9 of whom survive her and 2 dead; also a her advice and counsel will never be forgotten. She was ready and willing to go, and so expressed herself during her suffering with that dreaded disease, pneumonia.

Funeral services were conducted by Rev. Ormond, of the into the soil, plus one. Rarely, Rockingham M. E. Church and her remains interred at Eastside cemetery. A large concourse of friends and relatives were present and the grave was decorated with a profusion of beautiful flowers from loved ones. As she had requested, her grandsons acted as pall-bearers.

Peace to her ashes! Bless her memory and the many sorrowing ones left behind, especially the dear brother that is left so lonely. Frank.

MORTGAGE SALE STOCK OF

GOODS. By virtue of the power and author ity contained in a certain chattel Company to Bank of Candor on the phate and potash a second time, 13th day of December, 1920, and stuly registered in the office of the Register of Deeds for Richmond Crop. undersigned mortgagee will on Monday, the 12th day of June, 1922, at 12 o'clock M., in the town of Norfrom the Norfolk-Southern depot, sell at public auction, for cash, the following personal property, to-wit:

of Mutual Sales Company consisting of dry goods, shoes, notions, hats, etc., also heavy and fancy groceries. Also all accounts both open and se-

Especial Notice to

Cotton Farmers.

All farmers interested in the are requested to meet Homer H. B. Maske, representative of the Tuesday morning, at 10 o'clock, June 13.

W. H. Barton.

Do It Right or Not At All.

It now looks as if at least a thousand acres of vetch will be If properly inoculated, vetch is

a sure crop. It can be sown in Sept., Oct., and even Nov. The best time is

Sept. and Oct.

How to Inoculate.

For one acre, mix 20 pounds of vetch with 200 pounds of soil and cover at one operation. Oats love her, for she won many and vetch may be mixed with inoculated soil and drilled in as above. Vetch will come as deeply covered as will oats. This method gets the inoculation sufficiently deep to keep it alive until it takes hold on the vetch roots, and inoculation is sure to be effective.

If you expect to sow vetch, cut this out for reference.

W. H BARTON.

Why is a Farmer's Head.

more than one crop with the physicians could do to give her the fact that this is one of the no avail. God saw fit to take large number of grandchildren largest factors in our agricultur- her home. and some great-grandchildren. al economy, yet we dare say that It is hard for us to understand Truly she was a good woman, not one per cent of the farmers why those whom we love so well in the South have ever given it a and whose lives are so pure, suf thought, much less a place in fer so and are then called away. their agricultural practice.

The mineral elements, phosphate and potash, may be used to flowers for His kingdom. grow as many crops as are turned however, do we find a farmer who is willing to apply these elements to a cover crop which is planted for the purpose of turning into the soil for soil improvement. The writer, for years, has seen corn produced on in that fair land, that "sunshine poor soils without the application land" of wonder. We'll see her of fertilizers of any kind to the

The mineral elements were applied to vetch or the annual clovers in the autumn, resulting in a heavier cover crop containing more humus than nitrogen, which was disced at right angles and turned and followed by corn, which yielded 40 to 50 bushels mortgage executed by Mutual Sales per acre, thus using the phoswith increased results in each

County in Book 141, page 474, the applied to peas or beans in sum- you a few of my prices. mer to be turned in fall, followed by vetch or annual clovers to be man, N. C., just across the railroad turned in spring and followed by corn, thus producing three crops with the same fertilizers. We The entire stock of merchandise get a soil full of ability and fertility and a crop insurance against both drought and excessive rain fall, and the piece of depleted soil is made fertile with the use of only one application of fertilizer. Why is a farmer's head anyhow?

W. H. BARTON.

Important Notice.

I find that some farms are nat urally inoculated for Soy Beans Other-farms cr parts of farms are

not.

If your Soy Beans do not show nodules on their roots by the time they are two months old, side dress them with soil from soil that you know has been inoculated or is inoculated for Soy Beans. Such inoculated soil is best applied with a common fertilizer distributor. Don't neglect this and spoil your Soy Bean

W. H. Barton.

The Election Is Over.

The election is over, our minds are free, Lets think of clover and how to be free. Cotton Marketing Association Remember that legumes will beat all the "booms".

Accumulating wealth, and acquiring We'll plant our gardens, and "shake" our

Wardens, pay our debts, and cut out bets Stop our gambles, and cease our rambles Build us homes and save our "bones", Drink our milk, and support our ilk, Eat our breads and develop our heads.

Cut out quarrels and improve our morals, Thank Almighty Hand, we'll enrich our Land.

Begin NOW to think in terms of Hairy Vetch to be planted next September.

W. H. Barton. In Memory—

Mrs. Hallie Andrews Dabbs.

Mrs. Dabbs departed this life 1922. She was a noble young Christian woman of sterling character. It could well be said friends and all liked her for her sweet disposition and kindness.

Mrs. Dabbs was Miss Hallie Andrews prior to her marriage several years ago to Mr. Sam Dabbs. She was just 26 years old.

She left a sweet little boy, age three years, father and mother, two sisters, one brother, husband and a host of friends to mourn for her. She has gone to heaven to join brother and sister and many other loved ones waiting for us. Hallie had been in rapidly failing health for more than a How many farmers produce year. All that loving hands and ilizer? Notwithstanding back her health was done, but to

> But we know God's ways are not ours, for he plucks the fairest

She was buried at Mizpahr church, of which she was a member. Rev. B. E. Stanfield conducted the funeral service. Many beautiful flowers were placed on her grave.

But let's not think of her as dead-just waiting over yonder smile again some day. His promise still rings true-I'll go and stay awhile, then I will come for

Her cousin, Mrs. J. W. Smith.
