POST TIME 2:30

Lambeth Lauded By Colleagues

Congressman Retires From Office as Session Adjourns.

VERY POPULAR IN HOUSE

With the closing of the 75th Congress June 16th, 1938, came the end, temporarily at least, of the legislative career of J. Walter

Lambeth, of Thomasville, who has so ably represented the eighth Congressional district for the past eight years. Mr. Lambeth, a comparably young man, decided the past spring not to seek reelection to his position.

Mr. Lambeth's popularity in his district was such that he did not have opposition from his party during his duration of office and no doubt he would have

been without opposition had he desired to remain in office. Not only will his service be missed by his constituents but also by his colleagues in the House of Representatives.

On the last day of Congress, Luther A. Johnson, Representative from Texas rendered the following tribute:

"Mr. Speaker, I wish to pay a brief but deserved, tribute to one of our colleagues who is voluntarily retiring as a Member of this House. I refer to a gentleman from North Carolina (Mr. Lambeth).

"For eight years I have served with him as a member of the Foreign Affairs Committee and have, therefore, been closely associated with him in the performance of duty, and have come to know him intimately and well, and have for him great admiration and a deep and affectionate regard.

"To my mind, he is the ideal type of man to serve as a Member of the Congress of the United States, courteous and tactful, possessing intellectual ability in a marked degree, a high sense of justice, sound judgment, a good stock of common sense and a pleasing personality, combined with a courageous and determined will to carry out his convictions of what he conceives to be right. He has breadth of vision, the love of country, and a devotion to the ideals and best traditions of our Republic. The Nation will lose an able, faithful, and conscientious servant when he retires, and the entire membership of this House, on both sides of the aisle, will miss him; and I am sure that I speak not only my own sentiment but yours as well when I say he carries with him, as he voluntarily retires to private life, the esteem, affection, good will, and best wishes of this House.

What I have said of him can just as truly be said of his able

colleague from North Carolina (Mr. Umstead), who is also voluntarily retiring.

"I do not know who the successors of these two able gentlemen from North Carolina will be, but I seriously doubt whether the electorate of their districts can find two men who will measure up to the high standard of statesmanship displayed by them as Members of the House, and I know that none can ever command in a higher degree the warmth of affection and esteem that this House entertains for Walter Lambeth and Bill Umstead. May the future hold in store for them the full measure of health, happiness, and prosperity which they both so richly deserve."

Calling attention to Mr. Lambeth's excellent work as chairman of the joint committee on printing (Mr. Lambeth was the first member of the House ever to hold this position), Mrs. Edith Nourse Rogers, Representative from Massachusetts, had the following to say:

"Mr. Speaker, in these days when Congress is spending enormous sums of money and there has been such an orgy of spending, I think great credit is due the gentleman from North Carolina (Mr. Lambeth), chairman of the Committee on Printing, for the consolidation he made of certain governmental printing activities, thereby making a great saving. He had the very able support of the gentleman from Pennsylvania (Mr. Rich) as well as the other members of his committee. (Applause).

"I have had the pleasure of serving on the Committee on For-

eign Affairs with Mr. Lambeth and know his outstanding work there. In fact, Mr. Lambeth is such an able statesman and a gentleman in every sense of the word; I know all the Members of the House will be very sorry to lose him. It seems especially hard to lose a Member who has been able to save money for the Government in these days. Mr. Lambeth has been able not only to save money but is estimated that his plan will increase the sale of Government publications to 3,000,000 in three years."

Mr. Lambeth is far too young, able and sincere statesman to remain in private life for long and it is hoped by the people that he has served so well that he will alter his decision at an early date and return to public service, for which he is so excellently fitted.

Following is a brief resume of Mr. Lambeth's career as appears in the Congressional Directory:

J. Walter Lambeth, Democrat, of Thomasville, N. C.; born January 10, 1896, at Thomasville; son of John W. and Daisy (Sumner) Lambeth; A. B., Trinity College (N. C.), 1916 Harvard Graduate School, 1916-17; during World War served with the American Expeditionary Forces; elected to the State senate in 1921; mayor of Thomasville, 1925-'29; elected to the Seventy-second, Seventy-third, Seventy-fourth and Seventy-fifth Congresses.

AUTOS. Scientists say the autos of the future will draw electricity from the air. Would seem strange calling a U. S. Weather Bureau for battery service.

ROCKINGHAM B. & P. WOMEN

The Rockingham Business and Professional Women's Club was honored at the State Convention of the N. C. Federation of B. & P. Women in Goldsboro, when their exhibit received such praise and comment that Mrs. J. B. Spillman, sponsor of the International Breakfast held Saturday morning, June 18, in the dining room of the Hotel Goldsboro, had the above picture taken. Over 100 people were present, representing twenty-six clubs. In the picture are three members of the Rockingham Club, Kathleen Hicks, retiring President, Evelyn Story, incoming President, and Mrs. Neil Cadieu, publicity chairman. With them are shown Mrs. Spillman and Mrs. Jordan of Henderson, joint hostess.
