#### JULY 4TH SCHEDULE

Banks at Rockingham and both-for the boarders and the Ellerbe will be closed Saturhousekeeper. They were a day, July 4th, and will be friendly couple, always attended to their own business and unopen Monday, July 6th. The Courthouse will close

on July 4th and so will the postoffice and other governmental agencies.

Most business houses will remain open Saturday, but will close Monday, July 6th. This also holds true for the chain grocery stores.

#### That River Trip

Taken June 16-20 by the Entwistle "Boys".

(As told by John Entwistle Sr., for the Civitan's "NATIVIC" issue of July 2, 1953, Leo Allen, editor.—ISL). He grabbed her out. And then

it was that the fine Scout We, of the "Pee Dee Queen' wish that we could give you a Local Sequel of Kontiki, but and after valiant pumping and massaging as taught him in such is not our experience. In Troop 11 by Andy Walker, Ed five days of smooth riding Hurst and John Snoddy, she re-(June 16-29) we reached our destination, a wonderful experiter and now is none the worse ence behind us and our only hazards mental ones.

The crew of the "Pee Dee Queen" was excellent in all in getting that water out but for the knowledge of young respects and at all times. The only shortcomings were with the captain. He took his crew forth to combat mosquitoes, heat, and snakes, and ran into mud and then was a complete flop at making pancakes. (Proposed Civitan Pancake-Waffle Committee, please note).

The -"Pee Dee Queen" with "Me Too", the supply boat, in tow sailed — "triumphantly" not in this case—from the Cheraw at 10:25 A. M. and after of which is 14 years of age. four hours traveling time, reached the Sociey Hill Bridge, twenty-four miles down stream -six miles per hour! Four Hershey Bars hanging from the. bridge brightened things considerably. (Frances had been the names of all who have jointhere ahead of us). Eleven ed these branches of the milcamp as the clouds were thicken- locality during the month of Erskine Bostick, assistant ing. There are several kinds of June. It is noted that 11 men London, Conn., are visiting Mr. manager of the local branch of mud, I'm sure, but none as slick from Richmond County joined Southern Biscuit Co. and a the Pee Dee. Better not elabor- that period, most of them be-Mr. and Mrs. Ralph Ballard salesman. He has been with the ate on the mud as Leo censors ing from Rockingham and of Norfolk, Va., spent the week end with Mrs. A. T. White and from overseas in March, 1946, we saw enough mud during two From Rockingham: Blanard and has a large number of solid nights of rain.

On the third night we made Gresham, one hundred miles downstream. Gresham's claim, to fame is being the the home town of Mrs. Ella Jones Mulkey, wife of Civitan J. C. We were most happy to see a moon in the sky as we unloaded wet tents, blankets, and boys. We were even more happy when Mr. and Mrs. J. Frank Jones came by the Gresham Bridge and invit- assigned to an outfit in which ed us to supper. It was a superb supper under any circumstances, but to four wet and tiired boys (Ha, Ha.-Me, too) it was especially wonderful. We shall never forge the Jones' hospitality.

With the wet weather behind us and a good meal with us, we stepped up our tempo from thirty-five miles daily average to fifty and reached the Waccamaw River after leaving the Pee Dee below the Conway-Georgetown Bridge and taking Bull Creek into the inland waterwayat the Waccamaw.

In that swampy country a ridge of high land (3') looked especially good as darkness came and sand underfoot was a most welcome change. Next morning a yatch basin three miles downstream eased our concern over a low gas supply. Then up the Waccamaw to the dredged out part of the inland water way - at least, into the Tighman Yatch Basin at the Little River Bridge.

Perhaps a brief account of the vegetation along the river would be of interest. We noted Spanish moss before reaching Society Hill and had it all the rest of the way. There were very few pines along the river, but an abundance of Willow along the bank and reaching out into the water. Cotton-wood and sycamore were two other species very much in evidence. Grapevines climbing into the trees and patches of cane gave. at times, the appearance of a jungle. Below Florence, the cypress and juniper became plentiful. On the Waccamaw it was juniper and gum with an unusual pink rose giving color to the swamp-land. All in all, there is plenty of timber on the Pee Dee (Goodbye, Hal) and not a cultivated field until the inland waterway near Myrtle Beach.

Other rivers and other times, perhaps, but now we say thanks for your interest in our trip, and let's win some softball games and keep step with the fine pace President Tom and Editor Leo are setting .

### **LOST IN FRNACE**

(Continued From Page One)

the death of your son Airman afternoon. The funeral is be-2nd Class Hoyt D. Stankwytch. ing held Thursday afternoon, He died in France June 27 as July 2nd, at 5 o'clock at the the result of drowning.
