riage by her father. Her gown was a Vene original of white slipper satin, fashioned with a deep v neckline, long crushed sleeves tapered to points over the hands, and a molded basque which fastened in back with self covered buttons. Brussels lace, edged the neckline and formed the midriff, extending into the skirt in points on the sides. The bouffant skirt worn over crinolines, fell to the floor, extending into a long Cathedral train. Her two tiered formal length veil of illusion, was attached to a coronet of seed pearls. The bride carried an arm bouquet of white roses with a white orchid center and showered with stephanotis. Miss Dixie Anne Moore of Lynchburg, Virginia was the maid of honor. Mrs. Charles Lee Snuggs, sister of the bride, was matron of honor. Bridesmaids were Mrs. Barrington T. Hill Jr. of Wadesboro; Mrs. Edward Vuncannon Jr. of Ellerbe, sister of the bridegroom; Miss Carolyn Griffin of Statesville, college roommate of the bride; and Miss Joanne Schell of Wilmington. The flower girl was Miss Becky Ann Snuggs, niece of the bride. The Reverend Harvey W. Glazier officiated at the double ring ceremony. A program of nuptial music was presented by Mrs. Sam Harrell, organist, and Mrs. Jimmy Hough and Miss Becky Ann Snuggs, vocalists. The bride was given in mar-

It's the Best gasoline you've ever been able to use in your car!

GIVES ANY ENGINE TOTAL POWER

the utmost working horsepower under today's all-round driving conditions

NEW "TOTAL POWER" ESSO EXTRA

Four small images illustrating the benefits of Esso Extra: 1. A car driving smoothly. 2. A person working on an engine. 3. A car on a road. 4. A person at a gas station.

Total working horsepower for the highest-compression cars! For many late model high-compression cars "Total Power" Esso Extra makes it possible for the first time to enjoy full performance without a trace of knock or ping.

Total working horsepower for many new cars where total performance is kept "under wraps" by retarding the spark to avoid knocking. These cars may be set to fully efficient timing, getting more horsepower, better gas mileage.

Total working horsepower wherever "cold engine stalling" is a critical problem on cool, moist days. Its special additive protects against stalling caused by carburetor icing, permits maximum possible power-flow from the time you start your engine.

Total working horsepower can benefit present users of "regular" gasoline in short-trip, around-town driving. By switching to new "Total Power" Esso Extra, they can get better mileage this winter... better all-around performance, too.

New "TOTAL POWER" ESSO EXTRA is a blend of hydro-carbon power components especially engineered to meet the total power and anti-knock requirements of even the highest-compression new engines. For millions of older cars it means better working horsepower and better total engine performance. It is not only the finest gasoline in Esso history... but the very best gasoline you can buy!

TOTAL POWER means just what it says. It means, to begin with, a great advance in sheer high-compression POWER under the toughest driving conditions. It means POWER to start fast in any weather... POWER for fast warm-up... POWER to kill off knocks and pings... POWER to resist cool weather stalling... POWER to take steep hills in stride... POWER to pick up swiftly from a standstill. It means that in the total of the jobs your engine is called on to do, you can expect the maximum that can be obtained from any gasoline that you can buy. The inevitable result is the kind of smooth performance and long mileage you've always wanted.
