

Monday Morning, August 2, 1869.

Advertising Rates: One Square, ten lines, \$1.00. Each subsequent insertion, 50 cents.

Table with columns for 'Special Advertising Rates' and 'Terms'. Rows include 'One Square', 'Two Squares', 'Four Squares', 'One Column', 'Two Columns', 'Three Columns', 'Four Columns', 'Five Columns', 'Six Columns', 'Seven Columns', 'Eight Columns', 'Nine Columns', 'Ten Columns'.

Two Dollars per year in advance. Ten Subscribers, \$17.50. Twenty, \$30.00.

Agents for the Vindicator. The following gentlemen are authorized agents for the WESTERN VINDICATOR: Capt. W. D. JONES, Patterson, N. C. TIDDY & BROTHER, Charlotte.

TO THOSE WHO OWE FOR THE VINDICATOR.

We want every subscriber who is in arrears, to come promptly to our office and settle up their indebtedness. If you owe but one dollar come and pay it. We must have money before the 20th of August to meet our own obligations, and we depend only on those who are indebted for subscriptions to aid us. This is plain, please act at once.

COTTON & MILLS have just received a fresh supply of goods from the north. From the dull appearance of our streets one would hardly suppose they could meet such frequent acquisitions to keep up their stock, but so it is.

Cotton is looking up. Twenty-six cents per pound is now being offered for it in advance, on the growing crop. We see by our exchanges that the prospect is good in the South for an average yield, and, if it should so turn out, money will be plenty in the cotton States by another year.

The clouds have been promising rain for nearly a week, but as yet have given us no relief.

It never failed to rain here after a drought, and so we still have faith. As Judge HENRY said, "we have no way to judge the future but by the past. We hope all our exchanges won't copy this joke."

We had the pleasure of meeting Hon. CLAUDE TURNER on Friday, who, as our readers will remember, edited a paper in our village before the war. He is now a member of the South Carolina Legislature. We learn from him that Spartanburg county has recently been visited with a heavy frost, which has done considerable damage to both land and crops.

The eclipse of the sun which will occur on the 7th, at about five o'clock in the evening, will be well worth looking at; but people should look through a smoked glass, otherwise there is great danger of injuring the eyes. Congress appropriated several thousand dollars to enable scientific men to view this eclipse from different parts of the country, and it may be expected they will give us much new information on the subject of eclipses.

A SWINDLER.—A few weeks since a certain Dr. D. T. TAYLOR came to S. MITCHELL'S in Montford's Cove, reporting that he had had his horse stolen, and was out of funds. He remained there two or three weeks, ingratiating himself into the favor of Mr. MITCHELL and others, and was getting into a good practice as a physician. Finally he sold checks to the amount of \$350 to Mr. M., bought a horse which he did not pay for, and left for parts unknown. The checks had been sent him, doubtless by a confederate, and of course were protested. Hand him round, and watch out for the clan, of whom there is doubtless a good number traveling around.

Attention is called to the Advertisement of JES. WALKER, who will pay highest prices for Old Bank Notes.

HOW TO KEEP COOL.—The following simple hint from the Scientific American can be useful to remember during the warm weather of the present season:

"Be sparing in your diet, which should consist principally of fruits, berries and vegetables. Avoid everything of a greasy nature; also spices, condiments and sweets. Drink nothing but water. Chew nothing but food; chew that well, but do not chew too much of it. Excess in eating is one of the principal causes of that lazy, listless, relaxing feeling experienced by so many persons in hot weather. Dress lightly, and change often. Wear nothing at night which is worn during the day. Bathe body every morning with cool or cold water. Keep a clean conscience as well as body and clean clothing, and don't get excited. If uncomfortable, lay warm at any time, immerse the hands, or feet, or both, in cold water for a short time, or let a stream of cold water run upon the wrists and ankles. This will cool the whole body in a short time."

THE BARN BURNING IN ORANGE.—The Hillsboro Recorder has the following in relation to the barn burning in Orange county on Friday night last:

On Friday night last three of the hardest working farmers of our section were reduced to poverty by the torch of the incendiary. The barn of Franklin Minor with 700 shocks of wheat, of Jesse Morrow with 500 shocks of wheat—not telling the amount of oats, besides a mare and two fine mules that were destroyed—and the barn of Wm. Jones with about 800 shocks of wheat—machine—everything. All were on fire at the same time, and the distance was about three miles apart.

KOSKOO, the great Liver Invigorator, Blood Purifier, and Renovator, prepared by Dr. J. J. LAWRENCE, the celebrated Physician and Chemist, is a safe, pleasant, and reliable remedy, for the prevention and cure of all diseases caused by a TORPID LIVER, IMPURE BLOOD, DYSPEPSIA OF THE STOMACH, OR DEBILITY OF THE NERVOUS SYSTEM.

It regulates the secretions, eradicates all humors of taints, restores lost or wasted nervous power, and at the same time builds up and imparts tone and vigor to the whole system.

FOR FAMILY USE, AND THE MEDICAL PROFESSION, "BININGER'S OLD LONDON DOCK GIN" is now endorsed by prominent physicians, chemists and connoisseurs, as possessing all those intrinsic medicinal qualities (tonic and diuretic) which belong to an old and pure gin.

The Bininger's, No. 5, Beaver Street, have a very high reputation to sustain as the oldest and best house in New York.—Herald Journal.

The House of A. M. Bininger & Co., No. 15, Beaver St., has sustained for a period of ninety years a reputation that may well be envied.—N. Y. Evening Post.

The name of Bininger & Co., No. 15, Beaver Street, is a guarantee of the exact and literal truth of whatever they represent.—N. Y. Com. Advertiser.

The importing house of Bininger & Co., No. 15, Beaver Street, is conducted upon principles of integrity, fairness and the highest honor.—N. Y. Evening Express.

This gin has attained a popularity without precedent in the history of the trade.—Herald.

The Memphis Convention. [From the Courier-Journal.] The convention at Memphis for obtaining Chinese labor got through its business on Thursday and adjourned.

Its work is said to have been satisfactorily done. The Mississippi Valley Immigration Labor Company, with a capital stock of \$1,000,000, to be increased to double that amount in shares of \$100 each, was organized, and \$50,000 was subscribed on the spot.

Thus the Chinese movement is fairly initiated in the Valley of the Mississippi. It is entered upon under circumstances that cannot fail to give it a strong impetus. The times are propitious. The disposition of the people is favorable. Labor is disorganized, and laborers are demoralized. Employers are tyrannical over the employed.

There is prepared to give the fullest trial to whatever holds out the promise of relief. We have not long to wait to see the pending experiment in its incipient stages. In less than sixty days the Asiatics will be showing what they can do. If the result be a success, it will mark the beginning of a new era in the history of our continent.

To say nothing of the vast important labor in the fields, innumerable families in Kentucky as well as in other States have been and are now suffering extreme inconvenience for the want of the right kind of female house servants. It is hard to obtain those that are worth having, and often impossible to keep them when they have been obtained. Ladies keeping house are in a constant state of annoyance.

Not infrequently they are constrained to do their own drudgery for weeks together, to say nothing of the insolence to which they are compelled to submit. To such persons Chinese domestics, if as quiet, as docile, as obedient, as faithful, and as industrious as they are represented to be, will prove invaluable. Undoubtedly they have their faults, which we shall all discover soon enough if we employ them, but we trust, that if a change shall be made, the new order of things will turn out less insufferable than the old has done.

We have all heard so much about the cheapness of Chinese labor that upon this subject we shall undoubtedly experience considerable disappointment. Capable of living at an incredibly small expense, the Chinese can afford to work for exceedingly small wages, but they are shrewd, money-loving, and almost miserly, and they will be sure to get for their work all the money they can. If they do not know, when they first come among us, what compensation their labor can be made to command, they will not be long in learning all about it and turning their knowledge to the best advantage. If at any time, in any locality, or in all localities, labor shall be in excess of the demand for it, the Chinese will underwork the negroes, Germans, Irish, &c., but still they will be satisfied with nothing else than the best terms they can get. They will sell their labor to those who bid highest.

Our conclusion is that the immigration of Chinese labor will bring very speedily a reduction of the price of labor, but not so great a one as we have been accustomed to expect. And possibly we have been expecting a greater reduction than would be for the public good. Matters will adjust themselves.

The dog constable of Dudley, Mass., means business; his proclamation reads as follows: "By virtue of a warrant to me directed, dog-days will commence July 10th, and all owners of dogs not licensed, residents of Dudley, will do well to call at the town clerk's office forthwith, as there will be a howling in the dog family; after that date."

FIRE IN WILMINGTON.—A fire broke out in the Barrel Factory of Straube and Rice, in Wilmington, on Saturday evening last, by which the establishment was destroyed—loss \$26,000; insured to \$9,500. Some other buildings, contiguous, were also damaged.

Model wives formerly took a "stitch in time," now, with the aid of sewing machines, they take one in no time.

"I go through my work," as the needle said to the idle boy. "But not till you're hard pushed," as the idle boy said to the needle.

"Mr. Showman," said a green-horn at a menagerie "can a leopard change his spots?" "Yes, sir," replied the individual who stirs up the wild beasts; "when he is tired of one spot can easily go to another."

During a thunder storm at Newberne, Tuesday, the lightning struck in the water and threw such a quantity on the wharf that a boy was washed aboard and nearly drowned before rescued.

UNPRECEDENTED YIELD.—Doctor C. J. Powell, of Orange County, Va., from eight bushels of wheat seeded out upon one acre and a half of land, with 1,000 pounds of guano, has realized 210 bushels. This is said to be without precedent anywhere on the Atlantic slope.

Newberne has been visited by one of those remarkable tornadoes and lightning storms but seldom seen on the Atlantic coast. Several houses were set on fire by the lightning, and a steamer badly injured.

DOING WELL.—We are rejoiced to hear that the cotton crop along the line of the Wilmington, Charlotte and Rutherford Railroad is looking remarkably well, having been greatly improved by late rains. It is thought now the effects of the drought have been overcome.—Journal.

IMPORTANT DECISION.—We learn that the Supreme Court has decided in the case of Martin vs. McMillan, that a note given by an agent of the late Confederacy, for mules purchased in the military service, is founded on an illegal consideration and no judgment can be rendered thereon.

A St. Louis dispatch dated the 23d instant, says that the agent of the St. Louis & Chicago Railroad received a dispatch to-day, directing him to procure transportation to New Orleans for 5,000 Chinamen, who are going on Southern plantations as laborers.—Register.

SHIL HEADING CAPT. TYLER.—We learn that His Excellency, Governor Hobbie, sued out an injunction before Judge Watts, last night, to keep Cobe from interfering in the Stockholders' meeting of the W. C. & R. R. Company, to come off in Wilmington on the 29th. Poor Cobe! The Governor is hedging him in on every side.—Sentinel.

Wade Bolton, shot in Memphis, some days since by a Dr. Dickens, is dead. He bequeathed a hundred thousand dollars to charitable purposes, including ten thousand dollars to Stonewall Jackson's widow, and fifty acres of land to each of Jackson's former slaves.

MEMPHIS, July 26.—A severe earthquake was felt at 2 o'clock this morning. Several large meteors fell during the night.

Earnest Edwards, an English photographer, claims to have discovered a process by which he prints his pictures permanently in colors.

WEBSTER'S UNABRIDGED, NEW ILLUSTRATED EDITION.—As the traveler at the eternal city gazes with rapture upon the wondrous dome, and upon each receding visit beholds something new, some new feature he had not seen before, so it is with the student of Webster. The oftener one turns over its almost endless pages, the more his admiration is challenged. It would be superfluous to speak in detail of the merits of this great work; yet it would be impossible to say a word too much in its praise.—Charleston (S. C.) Gazette.

CALUMNY.—Take a great, illustrious revenge on your calumniators by seeking to do better; constrain them to silence by your excellence; this is the true road to triumph. If you take the other—if you plead your cause, justify yourself, or make reprisals, you open for yourself a store of woes, and you lose the tranquility which you require for your work, and the time in disputing which should have been consecrated to labor.

DIED. On the 26th ult., MARTHA LEE, youngest daughter of Dr. Thomas Edgerton, aged 2 years.

On the last instant, WM. DOBBISS COOK, in the 44th year of his age.

RELIGIOUS NOTICE. DISTRICT MEETING.—The Spartanburg District Meeting will be held in the Methodist Church in this place, embracing the fourth Sunday in August. The opening sermon is to be preached at half past 7, p. m., Wednesday, 18th inst., by Dr. W. Smith, J. W. McRoy, alternate.

The people generally are invited to attend the sessions of the meeting. V. A. SHARPE.

Sale of Real & Personal ESTATE. THE undersigned, Executor of the last Will and Testament of William Whiteside, dec'd, late of Polk county, by virtue of authority vested in them by said Will and Testament, will expose for sale to the highest bidder, on Saturday, the 11th day of September, 1869, at the late residence of the deceased, in Polk county, N. C., the following real and personal estate, to-wit: One tract of land known as the Sheppard place, acres; one tract of land known as the Case place, acres; one tract of twenty acres adjoining the above. These lands adjoin the home place of the deceased. Also a lot of Oats and Rye.

The lands will be sold on a credit of twelve months, the purchaser giving note bearing interest from date, secured by lien on property sold. The oats and rye on a credit of six months, note and approved security.

The title deeds of the above lands may be seen at the office of Churchill & Whiteside, attorneys, at Rutherfordton.

J. H. WHITESIDE, Executor. JOHN WHITESIDE, } Aug 2d 1869.
