For Senator Butler's A-Coming

To "Run the Gang of Anarchists, Red Shirts and Toadles Out of the State," So He Says, But When He Does He'll Be Permitted to Lead the Flying Proces-

RALEIGH, Jan. 20. - Senator Butler made an extreme speech to the Populist state committee in session here last night. He gave the keynote of the Populist machine campaign, attacking the new election law and the limitation of negro franchise. He said:

The negro question, I know, confronts us, and it must be settled, but we can't trust the man who has lived on the negro for 30 years to settle it. We've got to settle it. We are the folks who at heart want it settled; not they. We want it settled so they can no longer use it as a scarecrow.

"The Republicans also are anxious for its settlement and they'll Lelp to settle it in the proper way. The Republicans are in this fight to the death. Let us join hands with them and help them whip this gang out of the state, Let us announce to the world that North Carolina will no longer be ruled by anarchists, red shirts and a little gang of toadles-men who have betrayed every. body and everything.

The Republicans are willing for us to take the lead. Go shead and hold a convention and name a ticket. Of course, there will be some Republicans on it, and it may be we can find a Demperat who will join in this antiamendment fight. There are some such promment Democrats and I think it possible that one or more of them may offer to take a place on the ticket.

PRITCHARD ON THE NEGRO. BOER GUN SMASHES

WASHINGTON, Jan. 22.-At the conclusion of routine business in the senate today Mr. Pritchard of North Carolina called up his resolution relating to the proposed amendment to the constitution of North Carolina, which, if adopted, it is alleged, disfranchises a large class of voters of the state.

After reading the official resolution Mr. Pritchard addressed the senate in support of it, his address being in the nature of a reply to that delivered several days ago by Senator Morgan.

Mr. Pritchard said the question involved the peace and welfare of the nation and the stability of our institutions. The constitution guaranteed to each state a representative government. If Mr. Morgan's contention prevailed there would be pure nullification. He said the Democrats of North Carolina were attempting to deprive certain citizens of guaranteed rights, just as the Democrats of Louisiana had done.

Mr. Pritchard said that if Senator Morgan was right, then the Democratic party ought to have the courage to propose the abrogation of the fifteenth amendment, which gives the negro the right of franchise. He said the adoption of the proposed amendment to the North Carolina constitution would sound the deathknell to the aspirations of every Zeb Vance Democrat in the state.

While it was claimed that the object of the proposed amendment was to disfranchise thousands of white and black citizens and thus create an officeholding class, there could be no fear of negro domination in North Carolina, declared Mr. Pritchard, because the whites outnumbered the blacks two to one. He regarded the attempt to amend the constitution as an effort to legalize the fraudulent methods of the Democratic

NO REPORT FROM BULLER. Absence of News Increases the Anxiety In London.

London, Jan. 23. - Absence of news of yesterday's movements north of the Tugela river is occasioning some additional anxiety, but General Buller is engaged in a big operation, which will take considerable time to work out.

Even the slight advance of General Warren's forces, after two day's fighting, does not appear to have yielded an important advantage to the British, as the captured kopjes were evidently only held as advance posts in order to delay the progress of the British troops and enable the Boers to complete their entrencements and to mount guns on the position on which they have elected to make a stand.

It is remarked that the Boers thus it is judged that their guns are already mounted on tactical positions from which the British will have to dislodge the republicans before reaching Lady. smith.

There is no confirmation of the report that Lord Dundonald had entered Ladysmith and none is expected. Experts opine that the Boers would only be too glad to let him in unopposed.

The indignation and disgust expressed at the blunders and incapacity of the yeomanry staff, to whom is ascribable the rank failure threatening to overwhelm the movement started with such a fanfare of trumpets, are increasing daily. Those who were able to carry the scheme to success have been met at every point with red tape and all kinds of obstacles and slights by the inner circle of titled incapables, resulting in scores of good men withdrawing from participation in the plans. submit this proposition to the candid judgment of this house and before the bar of history. I am profoundly convinced that it is right and that history will so declare it; the house can no more safely part with this power than it can part with any other power it possesses. This touches its very vitality. If it loses it, it is in certain conceivable in-

stances absolutely without power. "But we are told that it is a power that may be abused. What power does the house possess that it has not at some time abused? What branch of the government is it that having power has not at some time abused it? What man, what body of men, clothed with a little brief authority, has been free from an unwise abuse of that authority? And shall they therefore be shorn of power? "It is a mighty question. It is a question of governmental life; it is not to be lightly dealt with or inconsiderately answered.

"The case of Roberts sinks into insignificance in its presonce. I should assert, what I here assert, with precisely the same solemnity, if the right of expulsion after admission was absolutely clear. If we do not exclude this man, we strike down one of the most vital and necessary powers that belong to a great legislative body. Let not such a thing be done. If it is not, we may be sure that never again, while the spirit of civilization dominates this republic, of civilization dominates this republic. will any defiant violator of law under color of religion or any other claim, whether polygamist or murderer, knock for admission at the door of the American congress."

Sold by druggists for \$1 a bottle THE BRADFIELD REGULATOR CO. IMPROVE ALABAMA RIVERS. Important Bill Introduced by Representative Underwood.

BIRMINGHAM, Ala., Jan. 19. - News comes from Washington that Hon. Oscar W. Underwood, representative in congress from this district, has introduced in the house a bill authorizing the improvement of the Black Warrior river above Tuscaloosa between lock and dam No. 4 and Valley river, from its mouth at McAdory, near Bessemer.

The purpose of the measure is to open a waterway from Birmingham mineral district to the Black Warrior river, and to make the latter stream navigable from a point where Valley river enters it to the point where the river has already been improved. The bill appropriates \$1,750,000 for the Black Warrior river work, and a sum not to exceed in the aggregate \$4,500,000 for the improvement of Valley river, the whole work to be done under the estimates submitted by the war department on Dec. 14, 1895 The project, which is known as the

Van Hoose canal, was first set on foot by Hon. J. A. Van Hoose when he was mayor of Birmingham. Congress autnorized the preliminary survey and Engineer Ripley came to this district and conducted the survey. In his report he said the Valley river could be canalized from McAdory to its mouth at the Black Warrior river for \$4,500,000. His estimate also included as possible and feasible the construction of a canal from Birmingham to McAdory at a cost of \$4,000,000.

This latter project is not embraced in Mr. Underwood's bill, being left as a subject for future consideration. Mr. Uderwood's purpose is to get the Black Warrior open for navigation up to the mouth of Valley river, and then to have Valley river canalized to McAdory before any step is taken to bring the proposed canal to the city of Birmingham.

INCOME TAX A FAILURE. Law Enacted Three Years Ago Has Just Been Repealed. COLUMBIA, S. C., Jan. 19.—South Car-

olina has tried the income tax; it has proved unprofitable and the law has just been repealed. The income tax bill was introduced as "an administrative measure" in January, 1897, to go Four competent and experiinto effect Jan. 1, 1898, and was passed at that session after a bitter fight in both houses.

The act provided that there should be annually assessed, levied and collected upon the gross profit and income received during the calendar year by every oitisen of the state, whether suid profit or income be derived from prop erty, rents, interest, dividends or salaries, or from any profession or trade or from any other source, a tax of 1 per cent on such income over \$2,000 and up to \$5,000, 11/2 per cent on the income from \$5,000 to \$7,500, 2 per cent from \$7,500 to \$10,000, 21/2 per cent from \$10,-000 to \$15,000 and 8 per cent on all in-

comes over \$15,000. The result of the first year, when the law was new and there was some fear that its provisions would be enforced, was that something over \$7,000 was collected, and the returns for last year were even smaller. The city of Charleston paid more than half the entire tax for the state, and then gave but a small portion of what was due under the act.
