WORRIED BY OFFCESEEKERS Are From Two to Five Candidates For Each Place.

BIRMINGHAM, Ala., Sept. 3.-Alabama is full of candidates. The offices they are after are known as "patronage at the disposal of the newly elected governor of the state," and these men are giving Governor-elect Samford no little worry. There are nearly two dozen offices to be filled wherein headquarters must be established in the capital city, while the governor will be called upon to make many more appointments in beats, counties, districts and 'even cities and towns. The largest position that che governor will give out is that filled by Captain James Crook of Calhoun county. This position pays something to be laughed at. There are said to be several applicants for the position, but knowing ones believe that Captain John | prize. V. Smith of Lee county, who so favora-

bly conducted the campaign committee of the Democratic party in this state last month, is slated for the job. That is, it is believed Captain Smith can get the position if he desires it. There are something like two to five candidates for each position. In addi-

tion to the one just named the following positions will be at the disposal of the governor when he goes into office three months hence: president of the convict board, paying \$2,500 per annum, and two members of the board, paying nearly

\$2,400 each. These positions are now being held by Captain S. B. Trapp of Anniston, Cap-tain E. W. Booker of Uniontown and Dr. W. H. Blake of Olay county.

ONLY REQUIRES APPROVAL. Naval Board Is Said to Have Decided

For Charleston. CHARLESTON, Sept. 3 .- It has been learned here that nothing official in the matter of the removal of the dry dock and naval station to Charleston from Pert Royal will be known positively until congress convenes in its next regular session. The entire matter, it is understood, has been cut and dried and the paval board has finished its work, although its action will need approval. This board has been at work for a number of months and all the claims have been considered. Members of the board have spent much time in Charleston and all the available sites were inspected thoroughly before the board made upits report. This report, it is said, is highly favorable to Charleston, and just now it does not appear that there is anything in the way of Charleston capturing the

Port Royal has been making a tremendons light to have the station kept at that place, although the moving to Charleston is understood all along to have been the idea of the navy department. It is an open secret that the navy is desirous of making the change, and money has been appropriated to this end. Nothing positive about the matter, however, will be known for some time yet.

FREE FROM COMPLICATIONS.

Concession to the Interoceanic Canal Company Is Annulled.

MANAGUA, -Nicaragua, Sept. 5.-El Commercio, a daily semi-official newspaper published here, in its issue of Aug. 12 contained an editorial announcement that the government of Nicaragua had informed the Interoceanic Canal company that its concession had been annulled Aug. 11 of the present year, because of the failure of the company to depend \$400,000 in American gold in the trasary of Nicaragua within four months after the organization of the company, as required by article 18 of the cural concession granted to Eyre & Uragin Oct. 30, 1898.

This apparently leaves the Nicaracurrent canal route free from any compilcations other than the demand for the sum which the Caribbean and Pacific Transit company may ask for its concossion obtained in 1897 or early in 1898, granting to it, the company declares, the sole right for 30 years of steam mavigation on the Rio San Juan river and Lake Nu agagua-the canal route-qualified, how we r, by the reserved right of Nicatagaa to, in the meanwhile, grant a canal construction concession to any one it saw fit to do so. It was agreed that the receivers of such a concession pay to the Caribbean and Pacific Transit comdainy for the Lake Silescia and San Juan fiver railroad (a few miles in length) for such improvements as it made in depending the San Juan river and for their steamboets, lighters etc., referred to in the concession they received.
