### AT THE WHITE HOUSE.

President Roosevelt Discusses Reciprocity Question.

Washington, November 18 .- The president's time toda; was occupied largely in the discussion of reciprocity. Senator Cullom of Illinois, and Representative Dalzell of Pennsylvania, had something to say to him upon that subject and a delegation of agricultural implement manufacturers consisting of James Deering of Chicago, A. B. Farquhar of York, Pa., and W. C. Barker of New York, who are here to attend the reciprocity convention which meets tomorrow, presented a memorial strongly urging that something be done. The delegation told the president that, in its opinion, the time for action had come. Reciprocity had been talked and preached about for years and unless a decisive step was taken now which would effect something the whole subject might well be abandoned. The members of the delegation said that they had no particular interest in any of the treaties, but thought, taken altogether, that the French treaty more nearly represented the best possibilities in the way of reciprocity and that if it could be ratified a distinct victory would be won.

Senator Cullom, after his interview with the president talked in the same vein. His attitude is considered important, as it is now practically settled that he will be at the head of the foreign relations committee.
