MAKE YOUR CHILDREN DO SOMETHING.

The article copied elsewhere in this issue from *Charity and Children* is a forceful way of putting the old idea that ability and capacity for doing things cannot be developed in idleness. We noted some weeks ago the organization in a North Carolina cotton mill town of a "Settlers Society," the purpose of which was to correct the evil of indolent parents living off the earnings of their young children in the mills. But there is an opposite to this extreme. The parents who allow their children to grow up without having any responsibilities do them as much harm sometimes as the indolent parent who grinds them unmercifully, though of course it is not done from a bad motive. The parable of the ten talents is as true in the physical world as in the spiritual world. We gain knowledge and power by the active exercise of the little that we have, and without its exercise it will be taken from us. *Charity and Children* could carry its illustration to business affairs quite as well as to political. The most conspicuous examples we have in business successes are those who had their problems to solve and their responsibilities to meet early in life.

Senator Hanna waxed eloquent, the dispatches tell us, in pleading for two hundred millions of dollars to be paid to the ship combines out of the public treasury in the interest of shipping, so he says, and yet the Senator is understood to be an obstructionist in the isthmian canal proposition, which would be a legitimate government undertaking, and which would be worth many times as much to the interests of commerce and of shipping.

"It is a monstrous proposition," says the *Baltimore American*, "that the Cubans should be starved to enable the New England Tobacco Association to grow tobacco in hot houses, and yet that is the situation at the present moment. This association is protected by the tariff to the extent of two dollars and seventy-five cents a pound."

It is said that ex-Judge Spencer B. Adams, who failed to get a Judgeship in the Philippines some time ago, will probably get a Judgeship in Alaska now. Well, Alaska will do.

Whether our law making burglary a capital offense is a good one or not, the commission of that crime is very rare in this State.

And now comes the distressing intelligence that we are to have a State base ball league again this year.

It is expected that the trial of James Wilcox, charged with the murder of Nellie Cropsy last November, will be the question of absorbing interest for the next few days. The grand jury of Pasquotank county found a true bill against him on Tuesday, and a special venire of 250 was summoned to appear today. The case is all the more interesting because of the uncertainty which still surrounds the death of this young girl.

Congressional Committee Meeting
 A meeting of Democratic Congressional committees residing in this new Seventh district, was held at Jackson Springs on Wednesday of last week, but nothing was done further than to elect chairman and secretary. Mr. W. C. Hardison, of Wadesboro, was elected chairman, and Mr. C. A. Armstrong, of Troy, secretary. It is expected that the meeting of the State Committee, to be held the 25th of this month, will declare these committees the committeemen for the new district, and then a meeting will be held and a call issued for the Congressional convention. The district is composed of the counties of Union, Anson, Richmond, Scotland, Montgomery, Randolph, Moore, Davie, Yadkin. Among the places mentioned for the meeting of the convention are Monroe and Jackson Springs.

Hope for Poor Boys.
 Charity and Children.
 Who are filling the places once occupied by Senators Vance and Ransom? Their sons? No, the sons of poor men are there. Two boys who had to battle their own way through the world; who knew more about mauling rails than they did about going through the mazes of the "german," or playing the polished gentleman at a high tea or a low tea, at a swell club or a card party.

Who is your Governor to-day, boys? A man who in his youth plowed in a new ground and hauled wood to town to exchange for meat and bread for the folks at home. Would he be where he is if he had been reared in the lap of luxury, or even in the scented atmosphere where dukes are supposed to thrive? Well hardly.

Who occupy all the prominent places in all the departments of life? Cast your eyes over the list that you know and see if you can lay your finger upon one who was softly reared. Oh, it is mighty nice to have a plenty of everything; to say to a servant do this and he doeth it, to go and he goeth, to stay and he stayeth; but it has its penalty, and that is to stay at the bottom of the panel and see the bottom rail slowly mounting to the top.

There are exceptions, but the rule is that the men who move things are they who went barefooted when they were boys and who learned to beak yearlings and manage mules. It is easy enough to see the reason for it. A fellow who overpowers a steer or gets the better of a young mule has received his first practical lesson in the management of men.

Came Near Marrying a Gould.

The Greensboro correspondent of the *Charlotte Observer* says: The appearance of Miss Tyler (Mrs. McLean) in this section has revived the story of how near she came being the wife of young Gould a few years ago. Miss Tyler (Miss Elizabeth Kirkland) is a daughter of Admiral William Kirkland, who was born in Orange county, some fourteen or fifteen miles west of Durham. She and Gould became engaged and the date for the wedding was set. Do what they would the brothers and sisters of the young man could not break the match. Finally they decided to try a knock at the old admiral's pride. A secret service man was sent to Savannah, Ga., where Admiral Kirkland secured his bride, to look into the "genealogy" of the family. The story was given out to the press. When this was done it was the old man Kirkland's time to ease, and it is said that he made good the time he had. He cussed out the whole Gould family and broke off the engagement. This was exactly what was wanted by the Goulds. They had carried their point and were happy. Her husband, Mr. MacLean, who is an actor of ability, is a native of Maryland and is said to be very wealthy. He is in the profession because he likes it.

Something that will Do You Good.
 We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup. NIAGARA
A New Town to be Built by Boston People Near Southern Pines.
 Correspondence *Charlotte Observer*.
 Southern Pines, March 7.—Messrs. B. L. Bartlett and T. S. Richards, of Boston, have purchased 200 acres of land and are negotiating for 300 more acres upon which they will build a new town named Niagara. The site of this new village is just two and a half miles from Southern Pines, near the great Niagara grape vineyard, and bordered on the east by the Seaboard Air Line Railway, from which a good view of the entire town can be had.

The plans of this new enterprise have already been drawn by Engineer H. O. Parker, of Southern Pines; the land has been surveyed, and house lots 50 by 100 are being laid out. The Seaboard Air Line Company has promised to construct a sidetrack and station soon. The owners will build a large hotel this summer, and will erect five or six houses at once.

The purpose of building this new town is more especially for the middle classes, who, if they desire, may make this place their continued residence, and in order that they might thrive here manufactories will be started. Already two firms have promised to come there just as soon as enough employes are settled to begin business, which will continue the year round, for there will be an open market for the goods manufactured.

The main purpose for founding this new town is to provide a healthful resort for those just entering the early stages of consumption and who cannot afford to take an extensive trip to Colorado or California, or cannot afford to live without some work to pay their way.

It Equals Niagara.

Salisbury Sun.
 The power at the Narrows, the development of which the Whitney Reduction Company is now engaged in, will give to this section the greatest power developed from a river in the United States with one exception—Niagara. The difference between the Niagara power and that of the Narrows is 4,000 horse power. Fifty thousand horse power has been developed at Niagara, and the Whitney Company is preparing to develop 46,000 horse power. The magnitude of operations of this company cannot be realized, and the Sun hopes to publish shortly a statement of the extent of the work contemplated by this company.

A Yorkshire vicar was teaching his band of hope to sing "Little Drops of Water." The children, however, were dull and stolid, and at last the despairing vicar exclaimed: "Now, children, try again 'Little Drops of Water,' and do pray put a little 'spirit' in it." —Household Words.

The glory of our State and nation does not consist in the number of their millionaires and their benefactions to their poor neighbors, but in the number of households where love reigns, and where the income is produced by the economy and industry of all who are interested in the home.—Mrs. L. S. Raymond.

Arrange to have a woman catch you admiring her photograph as if you did not know she was around and you have arranged to catch her admiring you.—Batchelor.

Disease and death would disappear forever if every young medical graduate understood his business as well as he thinks he does.

The young man who works just hard enough to hold his situation is always complaining because of a scarcity of chances for promotion.

Good nature will always supply the absence of beauty, but beauty cannot long supply the absence of good nature.—Addison.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally, in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Sketch of a Large Family Who Moved from this County to Louisiana.

In 1856 the children of W. C. Thomas (Club Foot) left this State for Louisiana, named as follows: Abner W. Thomas, Benjamin F. Thomas, James Thomas, Sallie Thomas, John Calhoun Thomas and Wm. C. Thomas.

In 1870 James died; in 1872 Sallie died; Abner about 15 years since, and Benjamin 10 years since. The latter married a Williams, whose mother was a Crawford, both of this county formerly. They left one daughter. Neither Abner James or Sallie ever married.

Last summer John Calhoun Thomas died. He leaves a family who reside about 50 miles north of Little Rock. It was the pleasure of the Richmond county old vets to meet him at the Reunion in Memphis but a few months prior to his death.

The last one of the family, William C., died at the Soldiers' Home near Little Rock in January. He had been sorely afflicted with rheumatism for 20 years—could not use feet or hands—and yet was not known to complain. All made fine soldiers in the war, and none were better citizens of this State, Louisiana or Arkansas. But few of our people remember this family. Nearly all their old associates preceded them to their final home.

ELLERBENEWS.

The frogs, which have been tuning up for some time past, gave us a regular concert last night. We seemed to distinguish tones of gladness for the departing winter, and promise for the gentle spring time. Thought we heard a martin's chirp this morn, and straight way had the English peas put in, together with radishes, early cabbage etc. The fruit blooms kept folded up, so 'tis a little risky to venture too far, against the natural indications of still another dish of ice-cream probably to be on hand.

Last Friday was a red letter day with us. The rural library was put in order, in the nice book case, and delivered into the hands of the Librarian, Miss Annie Bostick, who is ready to let out the volumes to any of the patrons or students, of the District school.

The teacher's meeting was held in the afternoon. There was a good attendance, all things considered, and it was a pleasant occasion. There was some spelling, which Mr. Walsh pronounced as good, or better than usual, and an essay on Education was read by Miss Maude Covington, of Bosticks school. It was quite a creditable paper. Then Mr. Walsh entertained us by an address which was enjoyed by all present. The school here began again Monday morning under the management of Mr. Orin Reynolds.

Mrs. S. F. Bostick and Mrs. B. Nicholson went to Roberdel last Friday to see Mrs. Sallie Nicholson, who is sick with pneumonia. They found her somewhat better, and returned Saturday.

Mr. Sam Townsend came home from Roberdel Friday night.

CORDOVA NEWS.

Misses Etta and Nettie Morse are visiting relatives and friends at Rock Hill, S. C.

Miss Stella Baldwin, one of our teachers, has been very sick several days with grip.

Messrs. E. L. Hamilton and Tom Sinclair spent Sunday in Hamlet.

Misses Nin and Lola Ingle has also been on the sick list several days, but are reported better.

Mr. G. R. Gilliam, of Elon College is visiting relatives and friends there this week.

One of our young duds has bought him a deaf and dumb mule, so the young ladies may look out.

Mr. T. A. Hall is visiting his daughter, Mrs. T. W. Ingle, in Charlotte this week.

Mr. and Mrs. H. O. Mattox were visiting in Rockingham Sunday.

Mr. Jno. E. Morton and wife left Sunday morning for Durham, where they expect to reside in the future.

ported that it was a car load of "bum weavers" to start the mill at night, as the mill is expected to run at night soon.

Messrs. J. E. Shaw and D. P. McDuffie spent Sunday in Hamlet.

Mr. E. E. Cooley, the professional well borer, expects to move his family to Hamlet soon.

Rev. Mr. Mercer preached an able sermon at Mispah Sunday.

Mrs. Dr. Webb expects to open a first class millinery shop at Cordova next week. The public knows Mrs. Webb is up-to-date in the business.

The concert that was to have been given by Misses Baldwin and Maben last Saturday night was postponed on account of the illness of Miss Baldwin, and will be given Saturday night, March 15.

It seems that Peg Leg Williams and politics have the country in an uproar. LOOM FIXER.

ROBERDEL NEWS.

Hurrah! for Roberdel No. 2. Hamp LeGrand, of Wadesboro, was visiting his parents here Sunday.

The Misses Saunders, of Ledbetters, were visitors here Sunday.

Mrs. J. F. Meacham who has been very sick is, we are glad to say, a little better.

"May Pop," of Mt. Olive, was visiting at Shaw Dawkins Sunday.

There ought to be a voting precinct at this place. Can't we get it?

D. M. Nordon is visiting his parents in Harnet county.

The ladies of the Woodman circle are getting up a play which they anticipate having in the near future. We notice in last week's issue that the Saxon has more subscribers at this place than at any other office of its size. The people here know a good thing when they see it.

It seems that there will be no end to candidates for the offices that are to be filled in November, and as suggestions are being made from every where else we will fall in line. Several gentlemen have been suggested to represent us in the Legislature, and as only one can be elected we think he should be a man that would have the interests of the people at heart, and as A. S. Dockery has been suggested we think he is the man. We believe Roberdel will be solid for him in the primary.

Mr. Wheeler Got Rid of his Rheumatism
 "During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around, when I bought a bottle of Chamberlain's Pain Balm. The first application I began to get well, and was cured and have worked steadily all the year.—R. Wheeler Northwood, N. Y. For sale by Richmond County Drug Co.

The more a spinster sees of men the better she likes cats.

I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, cold and croup I have ever used in my family. I have not words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For sale by Richmond County Drug Co.
