

### POWELL GETS BIG DAMAGES.

Validating Agent Disputed His Ownership of Ticket.

Charleston, S. C., July 12.—In the state court a verdict for \$5,000 has been awarded Henry S. Powell, of New York, in a damage suit filed against the Atlantic Coast Line. Powell came to Charleston on an excursion ticket during the exposition. When he presented the return slip for validation his ownership was disputed and a personal difficulty took place in the joint agency. Powell was arrested and locked up. He entered suit for \$5,000 and when the jury took the case the majority was in favor of awarding the full amount. There was a compromise, however, on the less amount.

Judge Gage refused to grant a new trial, saying that he would have allowed full damages had he been a member of the jury. This is the only suit resulting from the confiscation of tickets by the joint validating agents.

### WEDDED TO HALF BROTHER.

Shocked by Discovery, Bride of Fort Night Takes Deadly Dose.

The young couple were devoted to one another. Their meeting was an accident, the courtship brief and their honeymoon ideal.

Quite accidentally the bride discovered from anecdotes that he was her mother's son, her own half-brother, whom she had not seen for 20 years and whom she believed to be dead.

She did not reveal her discovery to her husband until she had taken the poison.

The Carolina Colony company, chartered last week by the state, with \$5,000,000 capital, is to build the road. All its original stockholders save its attorneys are New Englanders and New Yorkers. To these will soon be added many leading North Carolinians from points along the proposed line. The road will traverse a country well watered and timbered and also the best gold mining region in the state.

They will, however, make a nomination not only in this district, but in the other nine, and are saying they expect to carry two.

Stockbridge, Ga., July 15.—Four negro women engaged in a duel with razors at the door of a church near here Sunday, in which Dottie Miller was cut to death and Rachel Roberts was seriously wounded. ## SALISBURY RESIGNS; BALFOUR SUCCESSOR

Change in the Premiership of Great Britain.

HICKS-BEACH ALSO RETIRES.

Reason of Lord Salisbury's Retirement is Generally Regarded as Simply a Desire for a Quiet Life—Other Cabinet Changes Foreshadowed.

London, July 14.—The marquis of Salisbury has resigned the premiership of Great Britain and Rt. Hon. A. J. Balfour, the first lord of the treasury and government leader in the house of commons, has been appointed to succeed him.

The marquis of Salisbury tendered his resignation at an audience which he had with King Edward last Friday.

Saturday Mr. Balfour visited the king and accepted the premiership.

ARTHUR J. BALFOUR.

Perhaps never has a change of premiership been affected with so little dislocation to business, either public or private, as accompanied the transfer of the seals of office from Lord Salisbury to A. J. Balfour. The occurrence had no effect whatever on the stock exchange. The only other change in the cabinet thus far announced is the chancellorship of the exchequer, Sir Michael Hicks-Beach, who resigned today, though others are foreshadowed.

Mr. Balfour, in addressing the first meeting of his followers at the foreign office this afternoon, informed them that he could not count on the continued assistance of Sir Michael Hicks-Beach, but he could on the latter's good wishes.

The public showed little interest in the party meeting, which was summoned for noon. The new premier, when he entered the conference room of the foreign office, accompanied by the Duke of Devonshire, Sir Michael Hicks-Beach, Lord Londonderry and others, received quite an ovation. When Mr. Balfour rose to address the meeting all again stood up and cheered the new chief. Mr. Balfour referred to the loss of the services of the chief who, for nearly 50 years, had been engaged in active political life. No one, he said, would grudge him his well-earned repose, though his loss was irreparable.

"I do not flatter myself," proceeded the premier, "that the gap he has left can be filled. But the place he has left must be occupied, and it is because the king has desired me to do my best to take that position that I have asked you to meet me today. I have accepted a great task and a heavy responsibility, certainly from no over-weening belief in my own capacity, but because I am sure, or at least have every reason to believe, that in attempting to carry on this work I will have the most important qualification a leader can have, namely, the regard and confidence of those with whom he works."

As to Lord Salisbury's withdrawal, the main reason is considered by practically all the best informed persons to have been simply a desire for a quiet life on the part of a man advanced in years, whose activities have been unusual, and whose scientific tastes predispose him to study and seclusion. That the retiring premier's health has failed, to some extent, is undeniable, but this perhaps is to be expected in a man of his years, and the close of the war in South Africa and the return of the commanding general here is considered to be an appropriate time for his withdrawal.

Several other changes are likely to occur including the retirement of Earl Cadogan, lord lieutenant of Ireland, and the elevation of George Wyndham, the chief secretary for Ireland, to a seat in the cabinet.

Speculation is already rife as to who will be Sir Michael Hicks-Beach's successor. The name of P. W. Hanbury, president of the board of agriculture, is frequently mentioned.

Trouble Over Forest Reserve.

The meeting was in response to a call issued by Chairman H. S. Chubb, and its purpose was to consider the advisability of placing a Republican ticket in the field. This matter was thoroughly discussed by the members present, and the decision was finally reached that the central committee should appoint a sub-committee, which will go over the matter, and make a report at some time in the near future when the state central committee will be convened again. Resolutions of respect to the memory of the late Dennis Egan, postmaster, were passed.

The committee also drew up resolutions indorsing the administration of President Roosevelt.

### ALABAMA STRIKE SETTLED.

Operators and Miners Have at Last Agreed Upon a Scale.

Birmingham, Ala., July 12.—After a short discussion the joint convention of United Mine Workers and coal operators have agreed on a scale. Two trivial concessions on the part of the operators brought the miners over, and the scale was quickly adopted and signed.

The scale, as agreed upon, provides for a minimum price of 55 cents for mining coal and a uniform scale of wages for day laborers. The miners had demanded an increase of 5 cents per ton, a two weeks' pay day and an 8-hour work day. They lost all of these contentions, but gained a point in the establishment of a uniform scale of wages for day laborers.

### Stock Suffer for Water.

St. Augustine, Fla., July 15.—Cattle-men of this county are very much alarmed at the continuance of the drought. Those coming in from the ranges say that all creeks and water-holes have dried up, and the cattle are dying of thirst. Such a state of affairs has not existed in this county for many years. Yesterday a large bunch of cattle was driven across the bridge to Anastasia island, where water is yet to be had. It is likely that within the next week more stock will be sent to the island unless rain relieves the situation.

### WIRE FENCE 700 MILES LONG

Will Be Built on Boundary Line Between Canada and Montana.

Helena, Mont., July 14.—It is proposed to build a wire fence 700 miles long on the boundary line between Montana and Canada.

The necessity for this huge undertaking arises from the fact that several weeks ago, a large number of cattle that had strayed into Canada from this state were seized by the dominion officials on the ground that they had been smuggled. The fence will probably be built jointly by the Canadian and American governments and will cost several hundred thousand dollars.
