BLANTON SAVED FROM GALLOWS

Governor Aycock Commutes His Sentence to Life Imprisonment Raleigh, N. C., Aug. 2.-Governor

Avenck has disposed of an extremely interesting case by commuting to life imprisonment in the penitentiary the death sentence of Richard Blanton. a negro, who was convicted of assault and sentenced to be hanged at Sallsbury.

Richard Fleming, convicted at the same time, was hanged, and, dying, declared Planton's innocence.

Governor Aycock says in his reasons for commutation: "His guilt is too uncertain to permit his execution." The evidence against him was that of the woman who only saw him in the uncertain light through an open At first she failed to identify him, and the officer turned him loose on her statement. He proved an alibi by a witness who proved a good character. The trial judge earnestly recommends the commutation, and says that but for an implied understanding that the sentence would be commuted to life imprisonment he would have not the verdict aside. Blanton proved a good character on the trial. Many of the lawyers and other reputable citizens of the county recommended commutation, and most of them express grave doubt as to his guilt.

CEORGIA'S TAXABLE PROPERTY. Returns Show Increase of About

> Twelve Million Dollars. .. Atlanta, Aug. 4.-The tax returns 91 counties of the state have been received at the comptroller general's office. Of this number 55 show an increase in the returns, while 36 have decreased. The total amount of increase is \$4,964,131, and the decrease is \$1,438,814, showing a net gain of \$3,525,817 in the returns of general

> property received so far. There are yet 46 counties to be heard from, including all of the counties containing the large cities, with the exception of Muscogee. The counties containing the large cities almost always show an increase in taxable property every year. Judging by the present returns, however, it may be predicted that the returns of general property will show an increase of something like \$6,000,000 or more. Good increases are expected from Fulton, Chatham, Bibb, Richmond, Floyd and other counties, as the value of city property has been on the upward

trend. The returns of railroad, telegraph, telephone and express companies, which are, by law, made directly to the comptroller general, will show about the same increase this year as Made only by THE N. K. FAIRBANK COMPANY. Chicago, New York, Boston, St. Louis. last, or about \$5,000,000 to \$6,000,000.

This will make the total net increase of property values in Georgia this year something like \$10,000,000 to \$12,-600,000, which is about \$12,000,000 less than last year's increase.

The increase in general taxable property last year was about \$17,000, 000, and together with the railroads, etc., the net gain for 1901 amounted to more than \$22,000,000.
