Mr. Archie McNeill, of Spring Hill neighborhood, Scotland county, was in town Saturday with several bales of cotton for sale. He stated that he received a half cent more per pound for it here than he could have gotten in Laurinburg.

Rev. N. H. D. Wilson and wife spent an evening in Rockingham last week returning to Maxton from Chapel Hill. His many friends are pleased to see Mr. Wilson in such good health.

The article of Dr. J. H. Williamson in the Raleigh Post of some few days ago on Anthracnose is receiving considerable attention. Dr. B. W. Kilgore says the boils sent him have the disease and that it is growing rapidly in this State.

J. L. Galloway gave us a pleasant call Wednesday. He is very much interested in the good road movement and says the country people are fast falling into line. The idea for the smaller townships to have to build their

own roads is out of the question, he says.

The Primary System will keep the politics of the county in good fix. What Richmond county needs worse than all else is good roads. And all over North Carolina good roads have been built with bonds and the suggestion of direct taxation is absurd and would be very burdensome. The friends of good roads are not making it.

Just a few brethren owe us just a little on subscription and if you will look at the label on your paper you can see whether you are one of them or not. Now is a mighty good time to pay what you owe your county paper. Take a peep at your label.

We call attention to the statement of the financial condition of The Bank of Pee Dee published elsewhere in this issue of The Anglo-Saxon. No bank in North Carolina is better managed or in safer hands than this institution and it has deserved the great success which has come to it.

Rockingham ought to have better passenger depot facilities. If the public will take up the matter they can get it without much trouble. First ask the Railroad and if they act contrary in the matter go to the Corporation Commission and Rockingham will have a new and larger depot within a month or so.

In our write up of court proceedings last week we got Aaron Ledbetter and Aaron Dockery mixed up. It was Aaron Dockery who was sent to the penitentiary for house breaking. Aaron Ledbetter is a colored man of good character, so far as we know; and if he has ever been guilty of any offense we haven't heard of it.

My restaurant and jewelry establishment are still open. W. S. Fowlkes.

**Letter to Roberdel Manufacturing Company.**  
Dear Sir:—Mr. President of a cotton mill at Union, S. C.—he don't want to see his name in print—had two offers of 500 gallons of paint: \$1.30 and \$1.25. Took the \$1.25; and got skinned. He'd have got three-quarters skinned if he'd taken the other.  
The \$1.30 was full-gallon; the \$1.25 was 1 1/8% short. The full-measure paint was adulterated 40% the short-measure paint was adulterated 45% besides penicillin in the oil, don't know how much.  
Devote lead-and-zinc wasn't sold in the town then.  
It don't pay to monkey with paint.  
Devote costs less than any of 'em; not by the gallon, of course; by the house and year. That's how to reckon it, go by the name. Yours truly,  
F. W. Devote & Co

## SENATOR SIMMONS' FATHER KILLED.

Furnifold G. Simmons, a Farmer of Jones County, Shot and Killed by a Transpasser Whom he was Endeavoring to Drive from his Lands.

One of the most horrible crimes ever committed in North Carolina was the killing of Furnifold G. Simmons, father of United States Senator, F. M. Simmons, at his home in Jones county Saturday afternoon. The following dispatch to the Charlotte Observer of Monday gives the particulars: "Furnifold G. Simmons, father of Senator F. M. Simmons was shot to death Saturday afternoon by an unknown party who was trespassing on his land. He went out to find out who the trespasser was, but could not tell what color he was, as it was near nightfall. Yesterday morning the shooting was continued, and he again went out in search of the offenders, and this time he was shot himself. It is supposed from appearances that he lived several hours after being wounded. He was shot in the stomach, chest and throat with No. 4 shot. He was heard calling at intervals for three-quarters of an hour, but it was thought he was after the trespasser, and no attention was paid to him. Last night as he did not return home, search was made for him, but without success, so this morning the search was continued and he was found about 100 yards from the road dead."

Alfred Daniels, a negro has been arrested as the person who committed the murder. The evidence is said to be somewhat circumstantial, but was sufficient to cause the coroner's jury to return a verdict charging him with the crime.

Nothing like our line of clothing ever brought to Rockingham. A look will convince you. McAulay, Yorke and Rogers.

## Teachers' Examinations.

Public examinations for teachers' certificates will be held in Rockingham, Oct. 8th for whites; Oct. 9th for colored. Teachers are reminded that Theory and Practice, Drawing, Civil Government, Physiology and Hygiene and Agriculture are subjects on which they will be examined, along with others. It might be well for some of them to refresh their memories on these subjects.

W. R. COPPEDEE, C. S. S.

Come and get a Stein-Block or Kirschbaum suit. They don't cost you nothing like a "made-to-measure" and look better. McAulay, Yorke and Rogers.

## "Agriculture for Beginners."

The little textbook, "Agriculture for Beginners," prepared by three of the professors of one of our own state schools is one of the most valuable additions to our school literature that has been contributed in many years, and is a gem in its mechanical execution. Its illustrations illustrate, and many of them suggest simple experiments that children can make and comprehend which are both interesting and instructive. The farmer who undertakes to farm simply from the instructions of the best of agricultural journals without depending in a large measure on his common sense will make a failure, but at the same time the farmer who studies this little book will learn much that will help him to grow crops if he apply the least bit of common sense. Its faithful study by all our farmers would be worth \$10,000.00 a year to our county. The book can be found at the place of sale of the other school books, and should be carefully read by teachers with a view to originating classes for its study.

Had you heard about those 500 shirts at McAulay, Yorke and Rogers store. They are worth looking after.
