TERMS: \$1.00 PER YEAR

## Cheraw, July 7

The indications are that there will be a record-breaking crowd at the Cheraw July celebration on Tuesday, July 7th. The following program has been arranged:

- 11:00 a. m., Woodmen's celebration.
  - 11:30 a. m., Boat excursion down the river.
  - 12:00 noon, Auto races.
  - 2:00 p. m., Horse races at race track.
  - 2:30 p. m., Excursion on steamer Merchant.
  - 4:00 p. m., Baseball between Hamlet, N. C. and Florence, S. C.
- Special trains will be run on all roads.

## Woodmen of the World, Attention.

**Only Woodmen Read This.**  
From Secretary of Cheraw Camp:  
As you doubtless know Cheraw is to have a grand celebration July 7th, Woodmen from Chesterfield, Anson, Richmond, Darlington, Florence and Marlboro counties are expected to attend a meeting of their Order on that day at which time we will have the pleasure of hearing speeches by the Hon. Settle Dockery, of Rockingham, N. C., and Hon. W. P. Pollock of our city, who are famous for their oratorical powers. After the speaking we will unveil a monument to the memory of our late brother, W. H. Montgomery of our city. Cheraw Camp, No. 227, takes pleasure in inviting our brother Woodmen to take part in these exercises and will expect all who possibly can to attend. As Chesterfield alone has 1,000 Woodmen, a great crowd may be expected.

## Sail, Ho!

The steamboat excursion down the Pee Dee river July 7th, is well worth coming to Cheraw if for no other attraction. People residing in this and adjacent counties have no idea what a big river we have here. The big steel hull steamer will be held over especially for this occasion and two excursions will be run, one at 11:30 a. m. and 2:30 p. m.

## Automobile Races

Automobiles from several counties have already entered for this contest and the competition will be keen. Races will be over a triangular course, starting at Town Hall and going up Chesterfield road, about four miles across, to Wadesboro road, at 4-mile branch, and back to town hall.

So as to have something doing all the time Autoists will be started in regular succession, ten minutes apart, so by the time the last car leaves the hall one will come puffing in on the home stretch. Race will start promptly at 12:00 noon.

## Fast Horse Racing

Mr. P. B. Huntley, in charge of the horse racing in Cheraw on the 7th, states that he has entries as follows:

Marlboro county—Mr. W. R. Drake (Alfonso) and other racers will be over from Marlboro.

Cheraw—P. B. Huntley (Billy Jackson).

Timmonsville—Huggins & Davis.  
Wadesboro, N. C.—Mr. Walter Kerr  
Marion, S. C.—Mr. Earl Ellerbe and  
Mr. N. C. Murphy.  
Rockingham, N. C.—Mr. Cliff Flowers.

Penny Brothers, the twin auctioneers, will also enter horses from Greensboro, N. C.

Good purses will be offered and as Cheraw has one of the best tracks in the State, record-breaking time will no doubt be the result.

## Play Ball—Hamlet—Florence

This will be a hot game from the time the umpire calls, "Play ball," till the last ball floats over the plate.

Both towns are railroad centres and naturally a rivalry exists. A letter from both managers state they have assembled winning bunches and each is confident of winning.

It will be remembered that Hamlet is the town that whitewashed Cheraw's "Invincible" team the last two games. Baseballists are looking for a good game, and no doubt we'll see it.

## HOW HE WAS FOOLED

Trying to Find Out How to Spell a Name

Be it known that there is in Lynchburg, Virginia, a mail order house called the Lazarus Company, or, Lazarus is the proprietor or something or other where his name is used in sending for a few gallons. So it happened the other day in Danville that a strong prohibitionist was walking down a principal street and saw an erstwhile toper sitting on his front porch poring over a Bible. The erstwhile one seemed much interested in the pages of the sacred book, and was profoundly struck with the situation. He exulted. He saw that his good work had already borne fruit and the saloons had been but one week gone. He saluted his neighbor and said: "Well, I am glad to see this. It fills my heart with joy and doubly so when I know I took such a great part in the election. But a few weeks ago my friend, and you were lined up with the thugs and the gamblers, and today, under this beautiful reign of prohibition you are at your home, you are seated on your front porch reading that sacred book—indeed this is joy enough for all the years. I take it that you are now studying His word in order that you, like the city, may be regenerated.

The old pilgrim on the porch replied saying: "Hit ain't the divine word of which I am reading, but I'm a-trying to fine out how to spell Lazarus—as I am short on likker and was wanting to git off an order to Lynchburg on this here next train.

And the man who saw Regeneration on this porch went softly on his way—he looked into the heavens where the angels dwell—he gazed out on the beautiful landscape which God had formed and fashioned—he drank in the perfume of the wild flowers that peeped at him with saucy eyes from the old fences along the way—he recalled that from the dust of earth man was made—and a whisper that was lower even than the soft south wind that deftly touches his peruna painted cheek a whisper that even the angels failed to hear, he said "Well, I'll be d---d."—Everything.

## State Normal and Industrial

We desire to call attention to the advertisement of the State Normal and Industrial College which appears in this issue. Every year sees a steady growth in this great institution devoted to the higher education of the women of North Carolina. The McIver memorial building provision for which was made by the last general assembly, is now in course of erection and will be ready for occupancy at the opening of the fall term.

The college last year had a total enrollment of 930 students. Ninety-two counties were represented. Nine-tenths of all the graduates of this institution have taught in the schools of North Carolina.

The college dormitories are furnished by the state and board is provided at actual cost. Two hundred appointments to the dormitories, apportioned among the several counties according to population, will be awarded to applicants about the middle of July. Students who may wish to secure one of these appointments should make application before July 15th.

## What Reduction on Poll is Doing

It is estimated that the recent decision of the Supreme Court, which said that the poll tax shall not exceed two dollars, will cause Wilkes county to lose something like three thousand dollars. Last years more than twenty-six hundred dollars was collected on polls in excess of the two dollar rate. The property rate is ninety cents and even this low rate would have been reduced but for the decision.—Wilkesboro Patriot.

Mrs. S. Joyce, Claremont, N. H. H., writes: "About a year ago I bought two bottles of Foley's Kidney Remedy. It cured me of a severe case of kidney trouble of several years standing. It certainly is a grand, good medicine, and I heartily recommend it." L. G. Fox.

## BEST SALARY IN THE WORLD

Mining Expert Loses Seventy-five Cents if He Stops to Say "Howdy."

John Hays Hammon, mining expert, stopped in the corridor of the office building at 71 Broadway, New York, the other day, to say "how do you do?" to a friend. It cost him almost 75 cents. At the elevator he was halted by another friend who shook his hand and ate up almost \$2 worth of Mr. Hammon's time. A half-minute wait for the next car taxed him exactly \$23.

John Hays Hammon has just signed a five year contract with the Guggenheims to give them his exclusive time and advice in mining schemes for \$500,000 a year. He is the biggest wage-earner in the world. In five weeks he draws as much as the president of the United States gets in a year. The average laborer makes \$600 a year. Mr. Hammon makes that much in two and a half hours.

Until recently Mr. Hammon worked for the paltry sum of \$250,000 a year. It was whispered about mining circles that the Guggenheims thought that a bit too much and were about to pare it down. Instead, they gave Mr. Hammon a 100 per cent raise for his exclusive services.

All the Guggenheims agree that Mr. Hammon is a model employee. He is so regular in his habits that they have never found it necessary to put a time clock at the entrance of his office and he does not belong to any union. He works six hours every day and gets strenuous sixty seconds out of every minute.

Mr. Hammon's knowledge of mineral localities and ores is said to be so exact that he can tell at a glance from what part of the world a specimen of rock comes. He is what might be called a skilled workman. He can do his work in a boiled shirt, sitting at his maghogany desk. Once in a while he gets into a private car and takes a trip to some remote mining district, but most of the traveling is done by his assistants. He is the court of last resort and his word—a "yes" or a "no"—decides whether or not millions will be spent developing the mining property.

The champion wage earner was born in San Francisco in 1855. Gold was in the air—the county was swarming with 49ers. Young Hammon was raised on gold. He prospected when big enough to toddle. As he grew he determined to study engineering. He studied in the California schools and then came east and was graduated from the Sheffield scientific school at Yale. He then studied in several German universities.

Returning to the United States geological survey and scoured the fields of California, recording its mineral wealth. At Sonora, Mexico, he became superintendent of some silver mines and latter journeied back to his native state, where he first set himself up as a consulting mining engineer. He remained there until gold was found in South Africa. Mr. Hammon went to South Africa and met Cecil Rhodes at Cape Town.

"What do you want for your services?" asked Rhodes.

"I'll start in on \$60,000 a year," said Hammon.

"Then take off your coat and start right in," said Rhodes. "We have a great deal of work to do."

In 1891 he almost got his head into a noose through the Jameson raid. With other ringleaders he was sentenced to death for high treason. After great pressure was brought to bear on the Boers his sentence was commuted to fifteen years imprisonment. But after a few months he was released upon paying a fine of \$125,000.

Mr. Hammon is not a high liver, but he lives well. He goes to work in his own 200 foot steam yacht, manned by 32 men. His country home is at Gloucester, Mass. He has a \$10,000 automo-

## Has \$6 Worth of Hogs and \$100 Worth of Dogs.

A citizen of Concord township, in listing his taxes last week returned three pigs at \$2 each and five dogs at \$20 each—\$6 worth of hogs and \$100 worth of dogs. While the difference in the number and value of pigs may be contrasted with the number and value of dogs unfavorably to the citizen aforesaid, he should possibly be given credit for listing the dogs for taxation, something that is rarely done. It should be said, however, that the purpose in listing them was not so much a desire to pay taxes on the canines as to secure for them the protection of the law. The courts have held that a dog is not property unless it is listed for taxation. If it is listed the owner can prosecute any one who may do it hurt.—Statesville Landmark.

## No Need of Suffering from Rheumatism

It is a mistake to allow anyone to suffer from rheumatism, as the pain can always be relieved, lieved, and in most cases a cure effected by applying Chamberlain's Liniment. The relief from pain which it affords is alone worth many times its cost. It makes sleep and rest possible. Even in cases of long standing this liniment should be used on account of the relief which it affords. Do not be discouraged until you have given it a trial. For sale by all druggists.

## The Scripture Filling Itself Out.

An old negro man who answers to the title of Uncle Wash, looking at the automobiles that are becoming so numerous, sayeth: "Dis look at the Scripture filling hitself out. De Bible sez dat long about judgment day yous gwiner see kerridges running around widout no horses ner mules. Time is sholy indrawing hitself to a close.—Lexington Dispatch.

## Consumptives Made Comfortable

Foley's Honey and Tar has cured many cases of incipient consumption and even in the advanced stages affords comfort and relief. Refuse any but the genuine Foley's Honey and Tar. Ludolph G. Fox.

## Many Brandy Distilleries in the Mountain Counties.

The good fruit crop in this county this year is an invitation to make brandy. The officers say that it is probable that there will be more than 100 brandy distilleries in this county alone. There will likely be 50 distilleries in Yadkin and 25 in Alleghany.—Wilkesboro Patriot

Pinesalve Carbolyzed acts like a poultice. Quick relief for bites and sting of insects, chapped skin, cuts, burns and sores, tan and sunburn. Sold by L. G. Fox

## Picnic at Coleman's Mill

Lookout for the big picnic at the Coleman mills July 18. The string band of Steele's Mill will sure be there, and the brass band of Rockingham will also be there without a doubt. Let everybody come out that day and hear the candidates. They will be there. Bring well filled baskets and have a good time. No drinking allowed. W. P. INGRAM.

Bees Laxative Cough Syrup recommended by mothers for young and old; is prompt relief for coughs, colas, croup, hoarseness, whooping cough. Gently laxative and pleasant to take. Guaranteed. Should be kept in every household. Sold by L. G. Fox.

bile, in fact, several of them, and frequently takes a spin. His city home is a marble palace in 910th street, near 5th avenue. He does not keep late hours, and never enters the social whirl, though he is not averse to reasonable diversions.

His working time is worth \$277.77 an hour. It costs him \$73.94 to be shaved and if he went to a theater he would be sacrificing \$734.90 worth of time. If he stopped to listen to a funny story he would sacrifice about \$46 a minute.

Besides his salary Mr. Hammon is said to have an income from his own mining properties which exceeds his wages. He is said to own mines in every quarter of the globe.

## THE LAW IN A NUTSHELL

Summary of the Main Features of the State Prohibition Law

The following summary of the main features of the state prohibition law, which is effective January 1st next, is from the Charlotte Chronicle:

The bill forbids the sale or manufacture of intoxicating liquors, and this means spirituous, vinous and malt liquors or intoxicating bitters, within the state. Licensed drug stores will be permitted to handle it and sell it upon the prescription of a regularly licensed physician, provided it is prescribed only for sickness.

Wines and ciders may be manufactured from grapes, berries and fruits, and wine may be sold at the place of manufacture, nowhere else, containing not less than 2½ gallons in a package, but it is strictly provided that no wine shall be drunk or opened on the premises where it is purchased.

Cider may be manufactured and sold in any quantity by the manufacturer, and by him only, made from fruits grown on his own lands, not on the lands of another.

Medical preparations manufactured in accordance with formulas prescribed by the United States Pharmacopæia and National Formulary, which contain no more alcohol than is necessary to extract the medicinal properties of the drug and no more alcohol than will hold medicinal agents in solution, may be sold as medicines, but not as beverages, and these do not come under the meaning of the provisions of this act. All of this refers to patent medicines that are not now under the ban.

Any physician who writes a prescription for a person not a bona fide patient is subject to a fine and imprisonment and all drug stores are required to keep a record of every prescription issued.

The place of delivery, as is the case now, is made the place of sale.

The officer of any church, or any minister of the gospel, is permitted to purchase wine for communion services.

The county commissioners or governing body of any town have the power to prohibit the sale of intoxicating liquors by drug stores, and it is further provided that they may levy a special tax upon all drug stores.

## Big Day for Cheraw

Cheraw is going to have a big celebration on Tuesday, July 7. There will be a big Woodmen of the World celebration—two monuments will be unveiled and prominent men will speak. An automobile race over a 11-mile triangular course, horse races with big purses over the fastest track in the state, a baseball game between two teams, and steamboat excursions fifteen miles down the river and back. The Cheraw and Georgetown Steamboat Co. will have one of its largest steamers at Cheraw that day, and two excursions will run, one in the morning and one in the afternoon. The railroads will give cheap rates, and eight excursion trains over Cheraw's six railroad outlets will bring in the crowds.

Cheraw has grown wonderfully in the last few years, and it is one of the prettiest towns in the south, having 12 miles of shady streets with three rows of trees. Cheraw works more kinds of woods than any town in the state, and it will be a revelation to many to visit the various factories.

## You Should Know This

Foley's Kidney Remedy will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. No medicine will do more. L. G. Fox.

Charlotte's baseball team must have been born in Columbia. Charlotte Observer, No. no. In Raleigh.

Pineules for backache, little golden globules, easy and pleasant to take. Act directly on the kidneys, purify the blood and invigorate the entire system. Best for backache, lame back, kidneys and bladder. 30 days trial \$1. Guaranteed. Sold by L. G. Fox.

## Would Get Rid of it Quickly.

Druggists in Charlotte were given thirty days to dispose of their liquors. Give them a chance and they would sell it all in about thirty minutes—when the convention meets.—Greensboro Record.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis., to mail it. Ask the doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night Cure is sold by Ludolph G. Fox.

Prosperity signs—the large number of appendicitis cases.

Sick headache and biliousness relieved at once with Rings Little Liver Pills. A rosy complexion and clear eyes result from their use. Do not gripe or sicken. Good for all the family. Sold by Ludolph G. Fox.

## WATER RATES

Adopted by the Water Committee of the Town of Rockingham, at a Meeting Held in the Manufacturer's Building on June 12, 1908.

The charge per month for 10,000 gal. and under will be 30 cents per 1,000. The charge per month for over 10,000 gal. will be 25 cents per 1,000. Special rates will be made for special purposes.

The minimum charge per month will be as follows:

For 5-8 in. connections, \$1.00  
For 3-4 in. connections, \$1.25  
For 1 inch connections, \$1.50.

This charge, however, is not cumulative but works as follows:

If a party having 5-8 connection uses 3,300 gal. per month his charge would be \$1.00. It would still be \$1.00 if he used only 1,000 gal., but if he uses 5,000 gal. his charge would only be \$1.50.

We are advised and believe that for houses of ordinary size, with not more than one bath room, the charge will hardly ever be in excess of the minimum.

The actual cost to the town for tapping the main and furnishing curb cock, piping, corporation cock, meter, etc., to the sidewalk line is as follows:

For the 5-8 connection, \$17.04  
For the 3-4 connection, 21.62  
For the 1 inch connection, 28.00

The town will charge for this service, labor included:

For the 5-8 connection, \$20.00  
For the 3-4 connection, 25.00  
For the 1 inch connection, 35.00

which charge is payable in installments of \$1.00 per month, or if paid for in full within ten days ten per cent may be deducted for cash.

All meters will be read monthly and if bills are not paid by the 20th of the succeeding month the water will be cut off.

A discount of 5 per cent will be allowed on all bills paid in at the Treasurer's office before the 10th of each succeeding month. j20
