

WE SHOULD ACT NOW!

When the American army went down to Cuba to clean things up politically and otherwise after the Spanish-American war, it found that Havana was one of the yellow-fever pest holes in the

any surgeons learned that the mosquito was to be declared war on the mosquito. The weapons were not swatters. There was but one weapon—

the city was cleaned with absolute thoroughness. Mosquito-breeding swamps were drained. Lakes and streams were covered with oil. Now Havana is one of the world's most healthful cities. The lesson taught fifteen years ago has been applied steadily by the Cubans.

In this country the house fly bears about the same relation to typhoid fever and dysentery that the mosquito bears to yellow fever in the tropics. Both insects are dangerous germ carriers.

This community ought to rid itself of flies. The means of doing so are the same as those employed in ridding Havana, the Canal Zone, Manila and New Orleans of the fever mosquito. But the job will not be nearly so big.

Our citizens should call a meeting by the middle of next week and form an organization to conduct the spring fly war. There is no time to be lost. Once warm weather arrives the flies will multiply faster than we can kill them off.

Let us act now!

A few more copies of our Anniversary Edition left, send your out of town friends one they will appreciate it.

The Fragrance of The Lily

and the delightful odor of the Violet can be purchased at our PERFUME COUNTER. You can have the "sweet scents" of Easter whether you have the fresh flowers of a bottle of our perfume.

ALL WORK GUARANTEED

DR. E. E. HACHMAN, Surgeon Dentist

Phone 382, Cecil's New Building, WELDON, N. C.

DON'TS

1. Overvalue your property when placing insurance.
2. Start fires in stores, furnaces or stoves unless you are sure the fuses and chimneys are clean.
3. Allow a stovepipe to come in contact with wood. Use cement, tin or galvanized iron where the pipe goes through.
4. Leave your home with a lamp burning or turned down low.
5. Wash clothing or other articles in gasoline, benzine or naphtha, nor allow it kept in your house.
6. Throw water on flames caused by burning gasoline, benzine, naphtha or coal oil, as it spreads the flames. Smother it with a rug or covering of some kind.
7. Use any but the safety match; and others are dangerous.
8. Permit children to play with matches or start bonfires.

WORKMEN'S COMPENSATION SPREADING.

Workmen's compensation legislation will necessarily lead to an increase in the reported number of accidents, particularly those of less serious character, involving a comparatively short incapacity for work, but it may also be expected to bring about notable reductions in the actual number of accidents by causing the installation of accident-prevention appliances.

An important section of the bulletin is devoted to the progress of reporting and classifying accidents, indicating for the purpose of securing uniformity of practice in the reports of the various states.

More than half the states have adopted workmen's compensation laws and it may be expected that before very many more years the idea of compensation for industrial accidents will become universal throughout the United States.

TYPEWRITER REPAIR STATION

A great deal of the work done in these stations is cleaning typewriters, and a common method for doing this is to immerse the machine into a tub or vat of gasoline and wash or brush out the parts. This should never be done on the outside or in a room separate from any other and well ventilated.

"THINK FIRE" BEFORE IT HAPPENS

- DON'T allow children to play with matches.
- DON'T light the fire unless you may need them yourself tonight.
- DON'T leave everything to the landlady, inspect your own house from cellar to garret and locate all exits.
- DON'T throw away lighted matches, cigars, or cigarettes.
- DON'T go into dark closets, bed rooms, or cellars, using matches or candles to light your way.
- DON'T use insecticides in the vicinity of open flame lights. Many such compounds contain volatile inflammable oils.
- DON'T use kerosene, benzine, or naphtha in lighting fires or to quicken a slow fire—it may result in death.
- DON'T use gasoline or benzine to clean clothing near an open flame, light or fire.
- DON'T use alcohol lamps, especially if made of glass; they often break and the fluid is ignited at once.
- DON'T fill any lamp with gasoline, kerosene or other oils while the lamp is lighted. Keep the burners of all oil lamps thoroughly clean.
- DON'T fill kerosene lamps after dark or within 15 feet of the lights or fire.
- DON'T put ashes in wooden boxes or barrels. Keep ashes away from boards. Don't place them on dumb waiters or in closets. Hot ashes will take fire by themselves as they frequently have small bits of coal mixed in with them.
- DON'T use oils with a low flash point.
- DON'T accumulate rubbish in premises, cellars or workshops, and don't deposit such material on dumb waiters unless it is to be removed at once, while awaiting removal, keep such material in covered metal-lined receptacles.

Thirty-one buildings at Youngstown, Ohio, were condemned recently by the attaches of the State Fire Marshal's office, cooperating with the city officials and residents in the annual spring clean-up of the city. It is expected fifty more buildings will be ordered torn down in a few days.

NUMBER OF PAUPERS STEADILY DECREASE

According To Census Department Pauperism In The United States Has Declined Since 1880.

Pauperism is decreasing in the United States, according to a statement issued by the census department.

"The ratio of almshouse paupers to population has steadily declined at every census since 1880," the census bulletin declared.

One-third of the paupers in almshouses in 1910 were under thirty-five years of age and one-third, seventy or over. The males outnumbered the females two to one. Preponderance of paupers of foreign birth was also noted. The ratio of pauperism among negroes and whites is about equal, population considered, and it was declared that almshouses are rapidly becoming merely a temporary shelter instead of a permanent home—U. S. Census.

STANCELL ITEM

Miss Mary Lawrence and Mr. Geo. Steele visited in the home of Mr. B. W. Vincent Jr. Sunday.

Hydrophobia has played great destruction with dogs through out this section. Many hogs and cows which were bitten by the rabid dogs had to be killed. Some people have also been treated for the bites.

Mr. Walter Clements called on Miss Mary Hunt near Emporia, Sunday.

Mrs. Lena Wyenne, of Ahsokite N. C. who is visiting her daughter Mrs. B. W. Vincent Jr. is very seriously ill.

Mr. Dallas Rainey, Misses Louise Mornis and Mabel Rainey spent Sunday afternoon with Mrs. T. H. Valentine.

Mr. Davis, Camp 5, called in the home of Mr. E. M. Clements Sunday afternoon.

Mrs. S. J. Bartholomew and son, Emmette, of Castalia, are spending several days with Mrs. Joseph Shaw, Mrs. Bartholomew's mother, who is ill at this writing.

Mrs. Annie Grant and little daughter, Lottie, spent the weekend in the hospitable home of Mr. Charlie Grant.

Miss Mary Lawrence spent Friday and Saturday in Norfolk shopping.

Mr. Robert Pugh, Roanoke Rapids, spent Sunday with his father Mr. B. M. Pugh.

Mrs. T. E. Hoffer is greatly improved after undergoing an operation in St. Vincent's Hospital, Norfolk.

A number of people here are planning to attend the County Commencement at Jackson, Friday 21st.

Miss Reda Edwards, who has been in St. Elizabeth's Hospital, Richmond, for the past month returned home last week. She is wonderfully improved after undergoing four operations.

Misses Olivia and Josie Vincent spent Saturday in Roanoke Rapids shopping.

Rev. M. Y. Self filled his regular appointment at Oak Grove M. E. Church Sunday P. M. He rendered a good sermon to a large and attentive congregation.

Dr. T. H. Valentine and Mr. R. E. Cleston went to Lawrence, Friday on business.

Miss Alice Ellis, of Valentines, Va., is spending sometime in the home of Dr. T. H. Valentine.

SAFETY BY CO-OPERATION

Well said: "We must have co-operation in the great work of safety. Not only is this true of the men in the organizations that are giving the best that are in them to the work at hand, but the same spirit should be manifested by the safety departments of the various plants and railroads. Safety First is something that we should not permit to be commercialized. Anything that stands for the conservation of human lives, limbs and happiness is too sacred to be dragged in the dust of contempt and ridicule or made sport of commercialized bargains."

INDIGESTION

Pearson Remedy Co., Burlington, N. C. Gentlemen:

My wife has been suffering with indigestion for three years and everything she ate hurt her, she was also afflicted with female trouble. After using Genuine Indian Blood Purifier she is now in the best of health and recommends it to all who have suffered as she has.

Respectfully,
John R. Stout.

Your Old-Age Pension

The average man in this country is spending every dollar he earns, and the consequences are he is facing poverty. It is an every day occurrence to hear of some man who in his younger days had accumulated money dying penniless in his old age. Ninety per cent of the men to-day who have attained the age of sixty-five years are depending for support either upon public charity or their children.

These figures are alarming. Start to-day to accumulate a fund for old age with a very little self denial. Open an account in a savings bank and deposit regularly every month one-tenth of your salary for ten years and the result at 4 per cent will be as follows:

Monthly Salary	One-Tenth Deposited	Amt. Saved with int. in 10 years
\$40	\$4	\$580
50	5	737
60	6	785
75	7.50	1,106
100	10	1,475

Through the above saving method you would not be compelled in old age to depend upon public charity or relatives.
