CAPT. DAVID FALLON SPEAKS TO-MORROW

Brilliant British Soldier and Speaker will Address Halifax County Citizens at School Auditorium at 1:30 P. M.

MILLS WILL CLOSE FOR SPEECH

Capt. David Fallon, of the British Army, will deliver an address at the Graded School Auditorium at one thirty to-morrow, Saturday, afternoon.

Capt. Fallon is a speaker of exceptional ability, sent to this country by the British Government at the request of the American Government to make plain to the American people the kind of enemy we are up against and what we must do to save the world and ourselves from being engulfed in the horror of Germanic Kultur.

Capt. Fallon knows the German at his worst. He was wounded in Belgium to such an extent as to incapacitate him for active military duty. His government is now using his talents as a public speaker to wake up the American people to the desperate seriousness of the war in which they are now engaged.

Every man, woman and child should hear Capt. Fallon speak at the Central Schools Auditorium to-morrow. No admission will be charged—no collection taken. The Rosemary Manufacturing Company and the Roanoke Fibre Board Company will close down their plants in order that their employees may attend this speaking. The Roanoke Mills Company and the Patterson Mills Company close on Saturdays sufficiently early anyway for their employees to attend, and Mr. Job Taylor, will allow all of his men who wish to attend to do so.

The address is being advertised widely over this whole section of the county and in all probability the Auditorium to-morrow will be packed to its utmost capacity.

Helping Hand Social

The Helping Hand Society and their invited friends had a "Big Time" Thursday night, February 21st at the domestic science room. The occasion was in commemoration of Washington's birthday. The dainty decorations on every hand suggested the familiar "Hatchet and Cherry Tree" story. The beautiful dressing and unique disguising of Mrs. R. H. Stevens, and Misses Crews and Whitaker, brought before the eyes of those present the life and customs of days "gone by".

While a "Victrola" sang, the young people talked and played. After various games, a pie puzzle was submitted to the jolly crowd for solution and was finally solved by

Delicious cream with cherries and cake were served. As a fitting climax for this delightful evening together, the whole crowd, numbering fifty-four, stood and sang with patriotic fervor, "My Country 'Tis of Thee".

Those acting as chaperones were: Misses Crews and Whitaker; Mr. and Mrs. Stevens, and Mr. and Mrs. Trueblood.

Camera for Aviators

One of the new devices by which European war aviators obtain a correct photograph of the enemies' position is a camera operated with a trigger like a pistol. It can take clear and distinct photographs for military purposes at an altitude of 800 feet or more. The aviator takes aim and pulls the trigger as though firing a revolver. The pistol camera was invented by the Germans, but one of them was found on board an aeroplane brought down by the French. It was so simple and effective that it was copied in large numbers for French aviators.

Mrs. Donald McCluer, of Raleigh, and Miss Elizabeth Hale, of Halifax, are visiting in the home of Mr. and Mrs. J. W. House.

A Fruit-Picker

A help to the fruit picker has been devised consisting of broad straps or suspenders to which the fruit basket or pail is hung by metal hooks in front of the operator, leaving the hands free for picking. Equipped with this harness the picker goes about his task with ease, placing the fruit in the receptacle in front of him. He does not need to worry about its getting away from him, as the old pail hanging on the tree branch often did, and he can strip a tree clean of its fruit in much less time with this new contrivance.

Quite So.

The oculist is naturally optimistic, there being lots of money in sight for him. On the other hand, the dentist is not so optimistically because he often looks down in the mouth.

PLANS FOR NEW METHODIST CHURCH

Definite organization relative to the early erection of a new Methodist Church for Roanoke Rapids has culminated thus far in the appointment by the pastor, of an alert and aggressive building committee consisting of the following men: W. V. Woodroof, J. W. Smoot, J. M. Jackson and A. M. Proctor.

As a small but fitting tribute of appreciation for the long and excellent service of Judge Brown, one of the pioneers of Methodism in this community and one who played a most conspicuous part as a member of the building of the present church structure, an honorary affiliation with the above named committee was conferred upon him.

In their first session the building committee elected two members to offices essential to the committee's progress and welfare in the personages of A. M. Proctor Corresponding Secretary, and J. M. Jackson, Treasurer. J. W. Smoot was authorized to secure immediately the service of an architect that plans may be drawn and exact cost estimated.

All charitable members and sympathizers of our cause are urged to remember the blessedness of giving and to be patient for a short while until our committee can arrange for a suitable time for waiting upon all would-be patrons.

SPRING TONICS

More Molly-Coddles Die in Winter Than in Summer

"Come on out doors you may like it," is the advice of the State Board of Health in a recent bulletin. "More people die indoors than out. Come on out, get some good fresh oxygen, and sunlight and live." To prove its claims the Board points out that tuberculosis in all its forms kills between 49 and 50 percent more people in North Carolina during the shut in months of January, February and March than the open air outdoor months of July, August and September. But "the old T. B. is only one of the diseases that gets the shut-ins, the stowaways and the molly-coddles.

"But," continues the Board, the fear of catching something is only a small consideration. People who work and live out doors are generally more healthful, live longer and get more and better work done than the molly-coddles. For instance, records of tuberculosis children in open air schools it is claimed, show more rapid progress than the more normal children in badly ventilated schools. Colleges usually have two sets of athletic records, one for indoor performances and one for outdoor performances. As a general rule, the outdoor records are far better than the corresponding indoor records.

"The old bogey about 'night air' and 'damp air' being unhealthy is fast losing cast with intelligent people. Night air is really purer than day air and it does not carry malaria save as it carries mosquitoes. The danger from damp air is also much overworked. The damages wrought by excessively dry air in our living rooms, homes and stores is doubtless far greater than that from damp air. The essential thing is to see that we get plenty of the fresh outdoor air, twenty four hour's worth every day if possible. Its best spring tonic yet discovered. Are you getting yours?"

Drink Water Amplely.

When the thermometer is slowly climbing upward, the only way we can keep our own temperature from doing likewise is to drink copiously of pure water. There is nothing so refreshing or cooling as pure water chilled to a palatable temperature. Children especially should be encouraged to drink freely of water. Even babies should have their regular bottles of pure water.

Mr. House Entertains Class

Mr. J. W. House teacher of the Baptist Baraca Class, entertained the class at his home last Tuesday night.

Brief remarks were made by Prof. Proctor, and Revs. Few and Trueblood. Light refreshments and music added to the enjoyment of the occasion.

WAR CAMP COMMUNITY SERVICE

Instituted by the National Council of Defense and backed by the U. S. War and Navy Departments, patriotic men and women of the nation are uniting in a campaign to raise funds for War Camp Community Service.

The purpose of the War Camp Community Service Fund is the suppression of vice, the control of alcoholics, the creating of a homelike environment for our soldiers and sailors, and the securing of a square deal for our fighting men.

To show the evils the War Camp Community Service Fund is being raised to avert, it is only necessary to state that in Camp 9 in England, populated by Canadian soldiers, there are to-day 4,000 soldiers who are dying, rotting, of incurable venereal diseases. "These men are now under guard, behind barbed wires. They went forth to fight. Their mothers sent them gladly, believing their sons were to face a foe like men and serve their flag like true soldiers".

"These thousands of fine young Canadians never have seen the battle line, and they never will be permitted to serve as soldiers. They have been destroyed by unbridled prostitution and booze at work around military camps. They will never get home".

The stitch in time is being taken in America by those who are waging the War Camp Community Service Fund. In this county, Mr. Jno. L. Patterson, of Roanoke Rapids, is the directing chairman of the campaign. The quota asked of Halifax county is \$100.00, and all patriotic citizens of this county who wish to aid in this most necessary moral and social welfare work for the protection of our boys are asked to send their contributions to Mr. Patterson or hand them in at the office of the HERALD which will see that they reach him promptly.

Appropriations For Relief Work in France Announced By Red Cross War Council

The Relief work of the American Red Cross in France is already well under way, and appropriations for this work to the amount of \$30,519,259.60 have been made by the Red Cross War Council to cover the period from the time when the United States entered the war up to April 30, 1918.

Of this amount, \$14,919,889.50 is for military relief, under which head comes everything pertaining to hospitals and hospital supplies, canteen service and arrangements for the recreation and comfort of the American soldiers when off duty.

For civilian relief, including aid to refugees, care and prevention of tuberculosis, care of children, re-education of mutilated and blind soldiers and general relief work in six districts of the devastated area, a total of \$9,556,482.15 has been appropriated.

The Bureau of supplies and other administrative bureaus will receive \$3,359,541.75. Under this head come all transportation facilities, the department of engineering, the expense of 27 warehouses and insurance on goods stored therein, as well as all office expenses in France.

Under the head of miscellaneous activities, for which \$2,582,346.20 has been appropriated, come such things as relief of the families of sick and wounded French soldiers, all emergencies, the American ambulance fund, food for the French people, the Red Cross health center and other similar work.

In addition to this amount, an appropriation of \$7,663,649.12 has been made for the purchase in the United States of supplies for shipment to France.

Of this appropriation, only a very small percentage goes for salaries as more than 3-4 of the Red Cross workers in France are volunteers, a great many of whom even pay their own expenses. It has been estimated by the War Council that for every dollar donated to the war fund, \$1.02 is spent in direct relief, the .02 being interest.

THE LONE WOLF ATTRACTION MONDAY

In the presentation of a swiftly moving, tense story of mystery and adventure, the screen is supreme in the field of entertainment, and when such a story is the work of so brilliant an author as Louis Joseph Vance and the film version is prepared by such a master hand as Herbert Brenon, the result is certainly well worth watching for. Patrons of the Peoples and Rosemary Theatres will have this happy combination set before them on Monday, March 4th, when the big Selznick-Pictures production of "The Lone Wolf" will be the feature attraction.

The story centers about the deeds and adventures of a master criminal known to the police as the Lone Wolf. This criminal becomes involved with a band of crooks known as the Pack, through his efforts to rescue from them a lovely girl who, he believes, is a crook herself. The Wolf and the girl pass through many exciting adventures, including a running fight through the streets of Paris in taxicabs and a battle in aeroplanes, in flight across the English Channel.

Eventually the girl identifies herself as a secret service agent, but gives the Wolf his liberty under his promise of reformation. Hazel Dawn and Bert Lytell are featured players in a cast that is almost entirely of stellar calibre, including as it does the following: Alfred Hickman, Edward Abeles, William E. Shay, Stephen Grattan, William Riley Hatch, Florence Ashbrooke, Juliet Brenon, Joseph Chailles, Ben Graham, Robert Fischer and Master Cornish Beck.

Johnnie Jenkins, of Newport News, spent Sunday in town with friends and relatives. A. S. Allen, of Weldon, was in town a few hours Wednesday on business. Mrs. W. C. Williams and Miss Margaret Hodges spent the weekend in Enfield visiting relatives and friends. Jimmie Dickens, of Enfield, spent a few days here the past week with his brother, R. L. Dickens. Rev. and Mrs. J. C. Brooks, of Red House, Va., are here visiting Mrs. Brooks parents, Mr. and Mrs. H. T. Speight. J. B. Dickens and W. B. Dreyer, of near Halifax were in town Monday on business.

Mrs. T. N. Harrison, of Littleton after a few days visit here to friends and relatives, returned home the past week. G. F. Medlin, of Weldon spent Sunday in town with relatives. P. L. Matthews left the past week for Maryland where he has a contract for drilling wells. Maurice Allen after a weeks visit to his parents Mr. and Mrs. D. P. Allen left Wednesday for Camy Sevier, Greenville, S. C. G. E. Allen, of Valentine, spent a few hours in town Wednesday on business. R. B. Gammons, after a weeks visit in the home of Mr. and Mrs. J. U. Loftin returned to his home in Phoebus this week. B. D. Hamill, of Thelma, spent the day Saturday here on business.

Miss Ethel Hissey, of Baltimore, arrived Sunday to take charge of Miss Annie Medlin's Millinery Department.
